Estimated Value

RealAVM:	\$199,300	Estimated Value Range High:	\$231,188
Estimated Value Range Low:	\$167,412	Value As Of:	04/10/2022
Confidence Score:	58	Forecast Standard Deviation:	16

(1) RealAVM™ is a CoreLogic® derived value and should not be used in lieu of an appraisal.
 (2) The Confidence Score is a measure of the extent to which sales data, property information, and comparable sales support the property valuation analysis process. The confidence score range is 60 - 100. Clear and consistent quality and quantity of data drive higher confidence scores while lower confidence scores indicate diversity in data, lower quality and quantity of data, and/or limited similarity of the subject property to comparable sales.
 (3) The FSD denotes confidence in an AVM estimate and uses a consistent scale and meaning to generate a standardized confidence metric. The FSD is a statistic that measures the likely range or dispersion an AVM estimate will fall within, based on the consistency of the information available to the AVM at the time of estimation. The FSD can be used to create confidence that the true value has a statistical degree of certainty.
