

Notes from the Seller's and Interview With The Seller's

28239 Stonestead Drive has been an amazing home to our family. This was the first house my husband and I bought together as a couple, and it has served us well as it transformed from a house into our home.

We immediately knew this home was perfect from the moment we arrived. We envisioned children playing across the spacious front yard and loved seeing our neighbors partake in family time at the park just down the street. We instantly fell in love with the calm and comforting feeling that is present in every corner of the Firethorn community.

Our infatuation continued as we stepped inside. The towering ceilings offer a breath of fresh air and make quite the statement. The gorgeous French doors to the left entice guests to peek into the spacious office set with custom shelving and cabinetry as well as tons of natural light from the large window. The window offers a lovely view of the front lawn scattered with flowers and trees. The perfect atmosphere to work from home.

The custom valet by the front door has also been a stylish way to stay organized. The dining room is full of natural light and invites family and friends to join together as they share a meal and thoughtful conversation.

Once we entered the living space we were sold. The continuance of the tall ceiling and the open concept kitchen offer the perfect space to host. These areas have been well loved and hold dear memories of friend & family gatherings over the years. The breakfast nook has seen many game nights, wine tastings, and home cooked meals. The oversized kitchen island holds enough for a feast and has offered ample space for our family to cook and bake together. The natural light from the many large windows and the warmth of the fireplace really tie the rooms together to create the most relaxing space. The powder room is ideal while hosting gatherings and is easy to access for guests.

The primary suite stole our hearts. The bay window is the ideal spot to settle in and enjoy a book or magazine while watching the kids play outside or the dogs run around. The ensuite bathroom is spacious and offers his & hers sink spaces. This has made early mornings and getting ready for date night a breeze. It is easy to enjoy a glass of wine and light some candles to relax in the large bathtub. The large shower includes a bench seat and floating glass panels which give the bathroom a modern and clean look. The large, frosted window offers tons of natural light and truly makes the main bathroom glow. Not to worry, the walk-in closet with built-ins and shelving has ample space for all of your clothes and shoes.

We have never worried about storage in this home. Privacy and tranquility are easy to find in this primary suite.

The tall ceilings up the stairs are perfect for any family or couple. The gorgeous wrought iron catwalk offers convenience to watch the kids run back and forth while you are able to enjoy your coffee from the living room couch or prepare dinner in the kitchen.

Upstairs you will find the media room which is wonderful for family movie nights or watching the big game! It is cozy and has given our family a sense of togetherness. The large windows also fill the room with light.

The 3 upstairs bedrooms are ideal for family and guests. Each of these rooms offer large walk-in closets as well as plenty of space to play, read, and relax.

Of course, the updated bathroom is a necessity and has plenty of counter space and cabinetry for any of your storage needs. The private shower and toilet are behind closed doors and allow kids or guests to take full advantage of the space.

I must mention the relaxing backyard oasis. The custom stone deck and fire pit paired with the large patio cover have been enjoyed throughout all seasons. From grilling out on summer evenings to roasting marshmallows over an open fire, this patio is here to serve. The large backyard and side yards are ideal for entertaining,

On any given day you can walk down the street and see neighbors enjoying each other's company while watching over the kids as they grow up together. Taking a short walk down the road to get your mail and stopping at the park has been a favorite of ours. Just a mile away you will find yourself walking along a wooded lake pathway. Perfect for a bike ride, jog, or walking the dog. The clubhouse and its top-notch workout facility are extremely convenient. The community pools and tennis courts have been amazing amenities to have at our fingertips.

We hold this home near to our hearts as we have made many cherished memories here and we wish you and your family many wonderful years of making memories of your own.

A few updates we have made during our time here:

- Freshly painted walls, ceilings, doors, and trim throughout the entire home
- Updated cabinetry in upstairs bathroom
- Updated cabinetry in main bathroom
- Updated Kitchen cabinetry
