

# Texas Department of Agriculture WDI Post-Construction Treatment Disclosure Document

<b>Treating Pest Control Company:</b>	Pest Stoppers	<b>Treatment Type: (check all that apply)</b>	<input type="checkbox"/> Partial <input checked="" type="checkbox"/> Spot <input type="checkbox"/> Pier & Beam <input type="checkbox"/> Slab <input type="checkbox"/> Barrier <input type="checkbox"/> Baiting <input type="checkbox"/> Full (Fumigation only)
<b>Company's TPCL #:</b>	0603363	<b>Customer Name:</b>	Gianna Koch
<b>Company's Address &amp; Phone Number:</b>	7623 Spring Cypress Rd STE 5 Spring, TX 77379 (832) 593-0303	<b>Service Address/ Physical Location:</b>	2423 Horseshoe Ln. Richmond, TX 77406
<b>Disclosure Date:</b>	9/1/20	<b>Product(s): Pesticide(s) and or Device(s)</b>	Termidor HE
<b>Treatment Date:</b>	9/2/20	<b>Concentration(s) or number of Bait Stations:</b>	.06
<b>Targeted Wood Destroying Insect(s):</b>	<input checked="" type="checkbox"/> (S) Subterranean Termites <input type="checkbox"/> (F) Formosan Termites <input type="checkbox"/> (D) Drywood Termites <input type="checkbox"/> (CB) Carpenter Bees <input type="checkbox"/> (PPB) Powder Post Beetles <input type="checkbox"/> (WBB) Wood Boring Beetle <input type="checkbox"/> (WD) Other Wood Destroying Insect __ (specify)		

*When an estimate or proposal for all Wood Destroying Insect treatment(s) (EXCLUDING CARPENTER ANTS) is submitted to a consumer the pest control company must provide the following written disclosure information: For all treatments there will be a diagram showing exactly what will be treated. Treatment specifications and warranties for those treatments may vary widely. Review the pesticide label provided to you for minimum treatment specifications. If you have any questions, contact the pest control company or the Texas Department of Agriculture (TDA), P.O. Box 12847, Austin, Texas 78711-2847. The telephone numbers for TDA are (866) 918-4481, (512) 305-8250 or Fax: 888-232-2567. Documentation shall also include but is not limited to a diagram of the structure(s) including numerical perimeter measurements of the entire structure (no scaling) as accurately as practical, areas of active or previous wood destroying insect activity, the areas to be treated, areas of conducive conditions to infestation by wood destroying insects, construction details and other information about construction relevant to the treatment proposal, the concentration of any liquid pesticide application to be used, the minimum number of baiting systems installed, or the square footage if a physical barrier is installed.*

**The consumer is advised to review all this information and the pesticide label for explanations of the proposed treatment and compare this with any other proposal or estimate they may receive.**

## Treatment Types and Definitions

**A subterranean termite treatment may be a partial treatment or a spot treatment using an EPA approved termiticide, physical barriers or a baiting system. These types of treatments are defined as follows:**

**TYPES OF SUBTERRANEAN TERMITE TREATMENTS:**

- **Partial Treatments.** This technique allows a wide variety of treatment strategies but is more involved than a spot treatment (see definition below). Ex.: treatment of some or all of the perimeter, bath traps, expansion joints, stress cracks, portions of framing, walls and bait locations.
- **Spot Treatments.** Any treatment which concerns a limited, defined area less than ten (10) linear or square feet that is intended to protect a specific location or "spot." Often there are adjacent areas that are susceptible to termite infestation which are not treated.
- **Baiting Systems.** This type of treatment may include interior and/or perimeter placement of monitoring or baiting systems along with routine inspection intervals. The baiting technique may include one (1) or more locations as prescribed by the product label and instructions.
- **Barriers.** If a physical barrier is used, the square footage of the physical barrier must be recorded and a diagram describing the installation will be provided.

**TYPES OF SUBTERRANEAN TERMITE TREATMENTS BASED ON CONSTRUCTION TYPES:**

- **Pier and Beam.** Treatment of the outer perimeter including porches, patios and treatment of the attached garage. In the crawl space, treatment would include any soil to structure contacts (piers and/or pipes).
- **Slab Construction.** Treatment of the perimeter and all known slab penetrations as well as any known expansion joints or stress cracks.

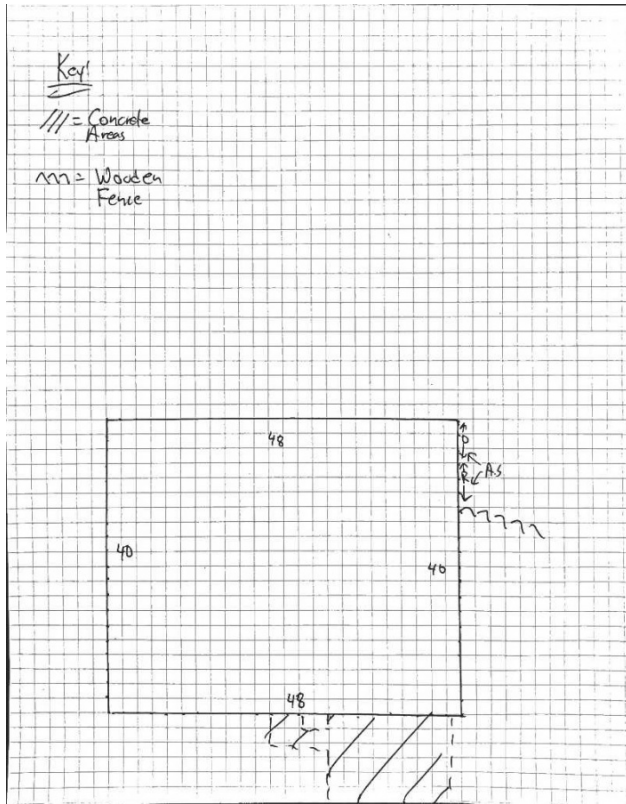

**A drywood termite, powder post beetle, wood boring beetle, or other related wood destroying insect treatment may be a full treatment or spot treatment. These types of treatments are defined as follows:**

- **Full Treatment:** A treatment to control 100% of the insect infestation by tarpaulin fumigation or appropriate sealing method. A full treatment by fumigation is designed to eliminate every insect colony. It should include the infested structure and all attached structures; or
- **Spot Treatment:** Any treatment less than a full treatment by tarpaulin fumigation. This treatment should be considered only when a drywood termite, powder post beetle, wood boring beetle or related insect infestation has a limited and defined area of infestation. Adjacent areas susceptible to dry wood termite, powder post beetle, wood boring beetle or related insect infestations are not treated. Because of the nature of wood destroying insects, these untreated areas may continue to harbor drywood termites, powder post beetle, wood boring beetle, and related insects throughout the structure without detection.

**Licensed and regulated by: Texas Department of Agriculture  
P.O. Box 12847, Austin, Texas 78711-2847, Phone (866) 918-4481, (FAX) 888-232-2567**

Description of Structure(s)	
Treatment Graph for this Service Address / Physical Location:	2423 Horseshoe Ln., Richmond, TX 77406
These are conducive conditions for Wood Destroying Insects. It is <i>recommended</i> the corrections be made to the structure. (noted on the graph)	<input type="checkbox"/> (G) Wood to Ground Contact <input type="checkbox"/> (I) Form boards left in place <input type="checkbox"/> (J) Excessive Moisture <input type="checkbox"/> (K) Cellulose Debris under or around structure <input type="checkbox"/> (L) Footing too low/soil line too high <input type="checkbox"/> (O) Planter box abutting structure <input type="checkbox"/> (Q) Wood Pile in Contact with Structure <input type="checkbox"/> (R) Wooden Fence in Contact with the Structure <input type="checkbox"/> (V) Insufficient Ventilation <input type="checkbox"/> (C) Other (Describe): _____
Notated on the graph are areas to be treated:	<input type="checkbox"/> (X) Drilled <input checked="" type="checkbox"/> (O) Trenched <input checked="" type="checkbox"/> (R) Rodded <input type="checkbox"/> (BS) Bait Stations <input type="checkbox"/> (BT) Barrier (Physical) <input type="checkbox"/> _____ Other label approved treatment method: _____ (specify) <input type="checkbox"/> _____ Other label approved treatment method: _____ (specify)
Notated on the graph is active or previous infestation	<input checked="" type="checkbox"/> (A) Active <input type="checkbox"/> (P) Previous    Location of the Treatment Sticker: <input type="checkbox"/> Beneath the Kitchen Sink <input type="checkbox"/> Adjacent to the Hot Water Heater <input checked="" type="checkbox"/> Electric Breaker Box

**Notes pertaining to construction details and/or treatment details:**

CA or Licensed Technician's Signature & License Number:	SIGNATURE:	Warrantied:	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO	<input type="checkbox"/> Complete Warranty Information Attached
	PRINTED: Chris Mountfort 0561165	Full Label(s) provided:	<input checked="" type="checkbox"/> YES <input type="checkbox"/> NO	
*Apprentice Name & Registration Number:	N/A	<input checked="" type="checkbox"/> Completed Use Record	<input checked="" type="checkbox"/> Consumer Information Sheet Provided	

\*Apprentice may **ONLY** complete a Disclosure Document **IF** a Certified Applicator **or** Licensed Technician licensed in the Termite Category is present during the inspection and completion of the form; this is allowed for training purposes **ONLY**.

# Texas Department of Agriculture WDI Post-Construction Treatment Disclosure Document

## ***Instructions for completing the Post-Construction Treatment Disclosure Document***

1. **A copy of the Disclosure Document, a FULL copy of the EPA registered pesticide or device label, a copy of a Consumer Information Sheet, and FULL warranty information MUST be provided to the customer PRIOR to any treatment being started.**
2. **All Disclosure Documents and Use Records MUST be maintained for a period of 2 years past the date of creation.**
3. **This Disclosure Document is for ALL Wood Destroying Insects, excluding Carpenter Ants.**
  - If you are treating for a Wood Destroying Insect which requires a fumigation application (i.e. Drywood Termites, Powder Post Beetles, etc.) you **MUST** be licensed in the Structural Fumigation Category as well as the Termite Category. In addition, a Structural Fumigation Log Form **MUST** be completed.
  - All Structural Fumigation Laws and Regulations **MUST** be followed.
4. **Complete all blank sections of this form** (These are the minimum requirements as per Texas Department of Agriculture's Laws and Regulations):
  - If you do not have the physical address for the structure you are treating, GPS coordinates or detailed directions from the nearest town/major intersection is acceptable.
  - You must provide the name and license number (TPCL number) of the business completing the disclosure document.
  - You must provide the date of which the Disclosure Document was issued.
  - IF an apprentice is being trained on how to complete Disclosure Documents a Certified Licensed Applicator OR a Licensed Technician, licensed in the Termite Category, **MUST** be present for the inspection and sign the disclosure as the responsible licensee for the document.
  - The name and license number, or registration number (for apprentices), **MUST** be recorded on the Disclosure Document.
5. Your graph **MUST** contain the following:
  - Perimeter measurements as accurate as practical and as they pertain to the application; scaled measurements are not acceptable.
  - Notation of all conducive conditions and their location on around/near the structure (see the code box for a list of conducive conditions). If additional codes are needed it **MUST** be defined.
  - Notation of **ALL** treated areas and the treatment methods used (see the code box for a list of treatment codes). If additional codes are needed it **MUST** be defined.
  - Notation of the location of the active and previous activity of wood destroying insect(s).
  - Notation of the wood destroying insect(s).
6. **List all the pesticide products and or devices used for the treatment on the disclosure and the rate of application or concentration.**
7. Full Treatment on this form is defined for **STRUCTURAL FUMIGATION ONLY**. All other treatments on a pre-existing structure are classified as either **PARTIAL** or **SPOT** (see the definitions above). Notation of a Full Treatment can only be noted on a Pre-Construction Treatment Disclosure Form.
8. If construction of the structure or other environmental conditions result in a change of how the structure is to be treated as per initially disclosed, an amended graph **MUST** be provided. In addition, if the product(s) have changed a new full label must be given to the customer.
9. Make notation of application limitations, structural impediments, soil conditions, etc. which would alter your treatment of the entire perimeter of the structure, etc.
10. **THIS IS NOT YOUR USE RECORD.** A copy of the pesticide or device use record may be kept in a hardcopy or digital format.
11. **FOR A RE-TREATMENT OF A PROPERTY FOR AN EXISTING CUSTOMER:**
  - The pest control business must provide the following before conducting the re-treatment:
    1. The label of the pesticide to be used;
    2. A diagram or updated diagram of the structure showing areas to be treated; and
    3. A consumer information sheet described in §7.147, of this title.
