

5126 Creek Shadows Dr. Kingwood, TX. 77339

Our home flooded during Hurricane Imelda. It was later discovered that Perry Homes, who at the time, was in construction of a neighboring subdivision, redirected their drainage, therefore affecting a small section of our neighborhood; and as a result, we took in less than 2 inches. A class action lawsuit filed and settled out of court...the problem has since been rectified! There was no flooding documented before, per the previous owners, and no issues since! Lastly, as an FYI, *flood insurance for this property is not required.* Thank you for considering our home...

Sincerely,
