

TOP 10 THINGS YOU LOVE ABOUT YOUR HOME

1	The Location - It's a very private home and quiet street, but only a few minutes away from 1488
2	The massive garage. Enough for 4+ vehicles, RVs, and a workshop as well. The epoxy floor really completes the garage! The upstairs stairs is also a little bonus!
3	The layout. Great utilization of space. Very cozy downstairs w/ 3 bedrooms / 1 full bath, and office / workout area upstairs.
4	Built in cabinets everywhere! Tons of storage space.
5	Kitchen - wonderful appliances (3 ovens!) and kitchen cabinets have 2 spice pullouts, mixer lift, large trash pull out.
6	All of the windows. Lots of natural light. Beautiful view outside the windows.
7	Asphalt driveway is so perfect for little kids to bike, scooter, skateboard all in the safety of your own home.
8	Only utility bill is electrical and trash. All other utilities (water, septic and propane) have been serviced within last month.
9	The smart home functionality. I love being able to turn on the lights, fan, security system all through speaking to Alexa. All lights off is great, too!
10	I love the master being right next to my son's bedroom, right by kitchen and laundry room. The spaces in this house make sense and there isn't any wasted space.
