

PRODUCTION GUARANTEE

This Agreement is a guarantee of solar (photovoltaic) production for Mr. Adam Collins (“Customer”), located at 4315 Cedar Elm Lane, Manvel, TX. 77578, facilitated by Circle L Solar, Inc. (“Company”) located at 3914 Sandshell Drive, Fort Worth, TX. 76137.

Whereas, the Company is to install a minimum 11,000 watt solar (PV) system on a structure owned and lived in by the Customer.

Herein, the Company, to provide good faith to the customer, and appease all parties, has offered this Production Guarantee Agreement to allow the Company to monitor production from the installed solar (PV) system to ensure it is producing correctly, and as expected.

Terms and Conditions:

1. The Company guarantees that the installed solar (PV) system at the location described above, will produce a minimum of 18,990 kWh (kilowatt hours) between July 1, 2018 to June 30, 2019.
2. The Customer agrees to maintain his solar (PV) system which includes, but not limited to, keeping it free and clear of any debris (dust, leaves, etc.) by spraying down the solar panels with water at least once every 60 days.
3. The Company agrees that if the installed solar (PV) system does not produce the guaranteed amount, the Company will, at no cost or expenditure to the Customer, install additional solar (PV) panels, provide associated hardware, labor, and any additional permitting needed to bring the annual solar (PV) production up to the promised kWh output.
4. The Company agrees that in the event the installed solar (PV) system does not produce the expected annual kWh, the Company will install the additional solar (PV) system as specified in paragraph 4 within forty-five (45) days. The customer understands that weather, permitting and any acts outside the Company’s control may delay the installation.
5. Both parties understand that this Agreement is valid for one (1) year from the dates specified above. If production meets or exceeds the annual kWh production rate of 18,990 kWh within the agreed time frame, this Agreement will become null and void.
