Mold Disclosure: There has been a great deal of publicity regarding the existence of mold (fungus) in homes, apartments and commercial buildings. Current information indicates that some types of mold may cause health problems for certain individuals. Not all molds are detectable by a visual inspection by a Broker or even a professional whole house inspector. It is also possible that the property could have a hidden mold problem that the Brokers and Seller is not aware of. The only way to provide a reasonable assurance that the property does not have a mold or other health hazard problem is to retain the services of an environmental expert who will conduct tests. Normally, these tests will consist of an interior and exterior examination for airborne spores and carpet test, but other procedures may be necessary. Any mold should be professionally evaluated. Broker and Seller advise that every Buyer should have a mold test performed by an environmental professional as either a separate test or an add-on to their whole house inspection. This is especially necessary if any of the inspection reports or disclosure documents indicate that there is evidence of past or present moisture, standing water or water intrusion at the property since most molds thrives on moisture. All inspections, including those to detect mold, should be completed within the inspection period established in the purchase agreement and counter offer. Any waiver or failure on the part of a Buyer to complete and obtain all appropriate tests, including those for mold, is against the advice of Brokers and Seller herein. Brokers and Seller have not and cannot verify whether or not there is any health hazard at the property. Buyer is fully aware that it is Buyer's sole responsibility to hold through physical inspections of the subject property.

Plumbing fixtures: Seller hereby advises Purchaser that the Property has not undergone an inspection by a plumbing specialist, and except to the extent set forth in the Multiple Counter-Offer and/or One to Four Family Residential Contract (RESALE), Seller shall have no liability or responsibility to make any repairs or modifications to the Property in order to comply with any city, state or local area requirements for plumbing fixtures. Purchaser is encouraged to independently verify whether all plumbing fixtures in the Property meet the requirements. Purchaser acknowledges and agrees that the foregoing information is provided for the sole purpose of complying with written disclosure requirements and shall not be deemed or construed as a representation or warranty under the One to Four Family Residential Contract (RESALE) agreement and may not be relied upon as a representation of current or future compliance with the applicable law concerning plumbing fixtures.
