A BETTER PLACE TO PLAY

Coles Crossing's master plan devoted 175 acres to recreational amenities, with an emphasis on preserving wooded natural areas and creating inviting spaces where families, friends, and neighbors can come together.

SWIMMING POOLS

The community center pool is a freeform resort style pool featuring a unique toddler area, two slides, interactive water features, and picnic area.

The lap pool is equipped with a 6-lane junior Olympic size swimming pool. Two lap lanes are continuously marked for individual swimming throughout the swim season.

COLES NATURE PARKS, TRAILS, AND PLAYGROUNDS

Preserves 56 wooded acres along Cypress Creek. This park includes a 2.5-mile nature trail built and maintained by the local MUD districts, and an outdoor classroom for school and community groups, as well as a splash pad.

A wooded preserve featuring a unique toddler area, an old-fashioned gazebo bandstand, two playgrounds, a 12-station exercise trail, sand

volleyball court, and sports practice fields for soccer, baseball and other sports. Coles Park is home to “Cole,” a life-size bronze statue.

COLES TENNIS CENTER AND FITNESS CLUBHOUSE

The Coles Crossing Tennis Center consists of six lighted tennis courts and a playground. Coles Crossing hosts regular activities such as tennis lessons and league play.

The Fitness Clubhouse is a 3000 square foot facility with cardio equipment, free weights, and cable weight machines. There is a covered patio area for outdoor workouts, yoga, and picnics.

COMMUNITY CENTER

Located at the corner of Barker Cypress and Jarvis, the Coles Crossing Community Center is the home to many of our neighborhood events and is available for private event rental to residents. Onsite management is also located within the Community Center, office entrance on left of building adjacent to the pool.
