83 Lake View Drive
Huntsville, TX 77320

Welcome to your new home at Lake Livingston!

We hope you will be as happy here as we have been. Some of our favorite things about this home and the area are:

Location! Location! Location! This home is located in the peaceful neighborhood of Green Rich Shores; which is one of the Lake Livingston surrounding communities. Lake Livingston -is the 2nd Largest Lake in Texas and offers fishing, water sports, hiking trails etc. This community offers amenities and provides that 'away feeling' without being too far away from shopping, restaurants, antiques; nature adventures, colleges, State and Local parks, Conroe, Houston, Houston Airports Etc. or water sports.

Our Community

Green Rich Shores is a private and close-knit community located on the northern end of Walker County. The neighborhood has a mixture of full-timers and weekend homes. Regardless of the living status, you will notice pride of ownership throughout as the homes are all well maintained . The HOA is active in supporting the VFD, the HOA and the residents. There are monthly dinners at the VFD, holiday gift fares, ice cream socials, and spring plant sales. My favorite, though, are the holiday boat and golf cart parades throughout the year.

In the summer months the lake will play host to people boating, water sporting, or swimming— Just enjoying ‘Lake Life’.

We have enjoyed the relaxed life of fishing, boating and watching sunsets. It’s a great place to live, work, play and vacation.

Features/Upgrades you will love about This HOME!

Improvements:

Over the last few years, several upgrades and changes have been made. The shed was moved further back so that a 2-car carport could be added. The carport is intentionally wide enough to allow you to open your car door and stay dry if it is raining. Also, a paved walkway was added from the front porch steps to the carport. The side stairs to the utility room have recently been rebuilt and a paved walkway was joined to the front walkway. This makes getting to and from the car so easy.

A large fire pit was added. This is great for hanging out with friends and family on brisk winter nights

The dining room had a large window that overlooked the back yard. Wanting a fuller view and access to the back yard, the window was removed and a sliding glass door, which has built in blinds, was added. This has really opened up the room and made the back yard easily accessible.

Features/Upgrades you will love about This HOME!

Improvements Continued:

To add color and a bit of privacy from the immediate neighbors, 10 Oleanders were planted along the south property boarder. To ensure that they had plenty of nutrients and water, a new zone was added to the existing automatic sprinkler system. The sprinkler system is permitted with the Trinity River Authority annually and pulls water from the lake. The motor was replaced in

Other recent improvements include, all new faux-wood white blinds in all rooms, double barn doors to the utility room, LED light bulbs throughout the house, solar flood lights inside the carport and along the paved walkway, bamboo window coverings in the shed to keep the contents out of view, and privacy film at the front door, utility room door and bathroom window that allows for light to come in but distorts the view from the outside.

Can you imagine a yard without fire ants? It's possible. A pest control contract is maintained and the yard is treated biannually that guarantees no fire ants!
