Green Mountain Energy Company (PUCT License 10009) is the nation's longest serving renewable energy retailer. Although we cannot promise that renewable energy will go directly to your home, the voluntary renewable portion of the electricity you purchase is added to the grid on your behalf and displaces power that's typically generated from more polluting resources.

CenterPoint, your transmission and distribution service provider, maintains the poles and wires that deliver generic power from the grid to meet your minute by minute consumption. Therefore, you will continue to receive the same reliability of service as you always have. CenterPoint will provide your metering and emergency services, so for metering and other routine services or if your power goes out, please call 1-800-332-7143.

Notice to Customers -- If you believe this bill includes unauthorized charges, you should contact Green Mountain Energy to dispute those charges.
