Richmond, TX 77469

## Reasons we bought the home

- Loved that all the rooms were in the back of the home.
- The open space allows you to see into the living room while making dinner.
- Having the option to have a 4th room that can be into a bedroom, study, or office.
- Having a niche space in the living room that we made into an office space.
- Large backyard is great for pets and kids.
- Two-car garage
- Covered patio
- Fireplace
- The elementary school being located with our subdivision, and the school itself is amazing.
- Being close to 59 but still tucked away from the busy traffic.
- Just the right amount of space for a family of five.
