

33119 Tall Oaks Way, Magnolia, TX 77354

Property Renovation Details

The homeowner of the subject property purchased this home with his wife and family in spring of 2020 as their forever dream home. They spent the last two years tirelessly and meticulously upgrading the entire property with an extensive and costly custom renovation. His company is now unexpectedly transferring his job, and now they are faced with an unanticipated relocation.

The owners have invested hundreds of thousands of dollars in upgrades into the property over the past 2 years, taking most of the home down to the sheetrock and rebuilding with a complete high-end renovation.

In addition to the stunning acreage and ability to have a horse on premise, they selected their home for the amenities both on site and in the community. The family enjoys wakeboarding and there is a private community wakeboarding lake just down the road from their home. As avid entertainers, they selected their particular property for the sprawling waterfront lot with easy access for both aesthetic purposes and recreational activities. Quick access to stand-up paddleboard or kayak from the waterfront lot. The backyard has been a focal point of the home for the family, with its convenient covered patio perfect for hosting outdoor dinner parties and the stunning refinished pool, spa and firepit.

The owner is also an avid car collector and works on custom hot rods for a hobby. He was drawn to the home with an easy access climate-controlled shop just a short walk from the main house and spacious car storage with his evolving curated collection. Endless possibilities for that incredible space which includes a large casita on the second story.

Ultra-Private lot with privacy from every room. No direct neighbors- expansive side lots on both sides. Extensive improvements since property acquisition include:
