1 mile west of Aggie express Parkway
7 miles south on FM 362, so total of 8 miles from the Aggie
express Parkway

Pass black fence on the left and you'll begin to climb the hill.

Right before you get to the top of the hill, on the left, you'll see a little white sign that will say Daniels. It's right when your navigator says. You will also see C21 sign. That is approximately midpoint . Go down, take the next left that is County Road 340 and it will say Pleasant Hill Baptist Church.

Go down County Road 340, you get to the church turn around there, it's a dead end when you turn around on your right, you will see an electrical easement. You will also see a gate with a C 21 sign on it and you will see some green ribbon. That is just a marker to get you onto the property. Go right around that gate you can get through it, And follow the clearing to the left. It will take you up to the front of the property. If you come back out and go to the left, the clearing will take you to big clearings. I put some green flags down FM 362, flags at the beginning, the middle, where the Daniel sign is, and almost to the end. If you go all the way down to the little creek, that's the end. I just put some estimates to help you not get lost.

I wouldn't park on FM 362. If you'll go down to County Road 340 and take that left. You can park back there. It's just a little gravel road. When you're coming down 340, there will be dogs and they will follow you but then stop. Just drive slow. Also that back entrance cannot be used since it is an easement.
