N Present flood coverage

N Previous flooding due to a failure or breach of a reservoir or a controlled or emergency release of water from a reservoir

N Previous water penetration into a structure on the property due to a natural flood event

Write Yes (Y) if you are aware, and check wholly or partly as applicable, write No (N) if you are not aware.

N Located  wholly  partly in a 100-year floodplain (Special Flood Hazard Area-Zone A, V, A99, AE, AO, AH, VE, or AR)

Y Located  wholly  partly in a 500-year floodplain (Moderate Flood Hazard Area-Zone X (shaded))

N Located  wholly  partly in a floodway

N Located  wholly  partly in a flood pool

N Located  wholly  partly in a reservoir

If the answer to any of the above is yes, explain. (attach additional sheets if necessary): See Harris County maps for location of 500 year floodplain.

\*For purposes of this notice:

"100-year floodplain" means any area of land that:

(A) is identified on the flood insurance rate map as a special flood hazard area, which is designated as Zone A, V, A99, AE, AO, AH, VE, or AR on the map;

(B) has a one percent annual chance of flooding, which is considered to be a high risk of flooding; and

(C) may include a regulatory floodway, flood pool, or reservoir.

"500-year floodplain" means any area of land that:

(A) is identified on the flood insurance rate map as a moderate flood hazard area, which is designated on the map as Zone X (shaded); and

(B) has a two-tenths of one percent annual chance of flooding, which is considered to be a moderate risk of flooding.

"Flood pool" means the area adjacent to a reservoir that lies above the normal maximum operating level of the reservoir and that is subject to controlled inundation under the management of the United States Army Corps of Engineers.

"Flood insurance rate map" means the most recent flood hazard map published by the Federal Emergency Management Agency under the National Flood Insurance Act of 1968 (42 U.S.C. Section 4001 et seq.)

"Floodway" means an area that is identified on the flood insurance rate map as a regulatory floodway, which includes the channel of a river or other watercourse and the adjacent land areas that must be reserved for the discharge of a base flood, also referred to as a 100-year flood, without cumulatively increasing the water surface elevation of more than a designated height.

"Reservoir" means a water impoundment project operated by the United States Army Corps of Engineers that is intended to retain water or delay the runoff of water in a designated surface area of land.

7. Have you (Seller) ever filed a claim for flood damage to the property with any insurance provider, including the National Flood Insurance Program (NFIP)?\*  Yes  No. If yes, explain (attach additional sheets as necessary): \_\_\_\_\_

\*Homes in high risk flood zones with mortgages from federally regulated or insured lenders are required to have flood insurance. Even when not required, the Federal Emergency Management Agency (FEMA) encourages homeowners in high risk, moderate risk, and low risk flood zones to purchase flood insurance that covers the structure(s) and the personal property within the structure(s).

8. Have you (Seller) ever received assistance from FEMA or the U.S. Small Business Administration (SBA) for flood damage to the property?  Yes  No. If yes, explain (attach additional sheets as necessary): \_\_\_\_\_

9. Are you (Seller) aware of any of the following? Write Yes (Y) if you are aware, write No (N) if you are not aware.

- N Room additions, structural modifications, or other alterations or repairs made without necessary permits or not in compliance with building codes in effect at that time.
- N Homeowners' Association or maintenance fees or assessments.
- N Any "common area" (facilities such as pools, tennis courts, walkways, or other areas) co-owned in undivided interest with others.
- N Any notices of violations of deed restrictions or governmental ordinances affecting the condition or use of the Property.
- N Any lawsuits directly or indirectly affecting the Property.
- N Any condition on the Property which materially affects the physical health or safety of an individual.
- N Any rainwater harvesting system located on the property that is larger than 500 gallons and that uses a public water supply as an auxiliary water source.
- N Any portion of the property that is located in a groundwater conservation district or a subsidence district.

If the answer to any of the above is yes, explain. (Attach additional sheets if necessary): \_\_\_\_\_

10. If the property is located in a coastal area that is seaward of the Gulf Intracoastal Waterway or within 1,000 feet of the mean high tide bordering the Gulf of Mexico, the property may be subject to the Open Beaches Act of the Dune Protection Act (Chapter 61 or 63, Natural Resources Code, respectively) and a beachfront construction certificate or dune protection permit maybe required for repairs or improvements. Contact the local government with ordinance authority over construction adjacent to public beaches for more information.

11. This property may be located near a military installation and may be affected by high noise or air installation compatible use zones or other operations. Information relating to high noise and compatible use zones is available in the most recent Air Installation Compatible Use Zone Study or Joint Land Use Study prepared for a military installation and may be accessed on the Internet website of the military installation and of the county and any municipality in which the military installation is located.

APPROVED BY THE TEXAS REAL ESTATE COMMISSION  
**ADDENDUM FOR SELLER'S DISCLOSURE OF INFORMATION  
 ON LEAD-BASED PAINT AND LEAD-BASED PAINT HAZARDS  
 AS REQUIRED BY FEDERAL LAW**

10-10-11

CONCERNING THE PROPERTY AT 3731 Rice Boulevard Houston  
 (Street Address and City)

**A. LEAD WARNING STATEMENT:** "Every purchaser of any interest in residential real property on which a residential dwelling was built prior to 1978 is notified that such property may present exposure to lead from lead-based paint that may place young children at risk of developing lead poisoning. Lead poisoning in young children may produce permanent neurological damage, including learning disabilities, reduced intelligence quotient, behavioral problems, and impaired memory. Lead poisoning also poses a particular risk to pregnant women. The seller of any interest in residential real property is required to provide the buyer with any information on lead-based paint hazards from risk assessments or inspections in the seller's possession and notify the buyer of any known lead-based paint hazards. A risk assessment or inspection for possible lead-paint hazards is recommended prior to purchase."

**NOTICE: Inspector must be properly certified as required by federal law.**

**B. SELLER'S DISCLOSURE:**

1. PRESENCE OF LEAD-BASED PAINT AND/OR LEAD-BASED PAINT HAZARDS (check one box only):
  - (a) Known lead-based paint and/or lead-based paint hazards are present in the Property (explain): \_\_\_\_\_
  - (b) Seller has no actual knowledge of lead-based paint and/or lead-based paint hazards in the Property.
2. RECORDS AND REPORTS AVAILABLE TO SELLER (check one box only):
  - (a) Seller has provided the purchaser with all available records and reports pertaining to lead-based paint and/or lead-based paint hazards in the Property (list documents): \_\_\_\_\_
  - (b) Seller has no reports or records pertaining to lead-based paint and/or lead-based paint hazards in the Property.

**C. BUYER'S RIGHTS** (check one box only):

- 1. Buyer waives the opportunity to conduct a risk assessment or inspection of the Property for the presence of lead-based paint or lead-based paint hazards.
- 2. Within ten days after the effective date of this contract, Buyer may have the Property inspected by inspectors selected by Buyer. If lead-based paint or lead-based paint hazards are present, Buyer may terminate this contract by giving Seller written notice within 14 days after the effective date of this contract, and the earnest money will be refunded to Buyer.

**D. BUYER'S ACKNOWLEDGMENT** (check applicable boxes):

- 1. Buyer has received copies of all information listed above.
- 2. Buyer has received the pamphlet *Protect Your Family from Lead in Your Home*.

### CONCERNING THE PROPERTY AT \_\_\_\_\_

#### A. FLOOD AREAS:

- (1) The Federal Emergency Management Agency (FEMA) designates areas that have a high risk of flooding as special flood hazard areas.
- (2) A property that is in a special flood hazard area is designated on flood insurance rate maps with a zone beginning in a "V" or "A". Both V-Zone and A-Zone areas indicate a high risk of flooding.
- (3) Some properties may also lie in the "floodway" which is the channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge a flood under FEMA rules. Communities must regulate development in these floodways.

#### B. AVAILABILITY OF FLOOD INSURANCE:

- (1) Generally, flood insurance is available regardless of whether the property is located in or out of a special flood hazard area. Contact your insurance agent to determine if any limitations or restrictions apply to the property in which you are interested.
- (2) FEMA encourages every property owner to purchase flood insurance regardless of whether the property is in a high, moderate, or low risk flood area.
- (3) A homeowner may obtain flood insurance coverage (up to certain limits) through the National Flood Insurance Program. Supplemental coverage is available through private insurance carriers.
- (4) A mortgage lender making a federally related mortgage will require the borrower to maintain flood insurance if the property is in a special flood hazard area.

#### C. GROUND FLOOR REQUIREMENTS:

- (1) Many homes in special flood hazard areas are built-up or are elevated. In elevated homes the ground floor typically lies below the base flood elevation and the first floor is elevated on piers, columns, posts, or piles. The base flood elevation is the highest level at which a flood is likely to occur as shown on flood insurance rate maps.
- (2) Federal, state, county, and city regulations:
  - (a) restrict the use and construction of any ground floor enclosures in elevated homes that are in special flood hazard areas.
  - (b) may prohibit or restrict the remodeling, rebuilding, and redevelopment of property and improvements in the floodway.
- (3) The first floor of all homes must now be built above the base flood elevation.
  - (a) Older homes may have been built in compliance with applicable regulations at the time of construction and may have first floors that lie below the base flood elevation, but flood insurance rates for such homes may be significant.

- (b) It is possible that modifications were made to a ground floor enclosure after a home was first built. The modifications may or may not comply with applicable regulations and may or may not affect flood insurance rates.
  - (c) It is important for a buyer to determine if the first floor of a home is elevated at or above the base flood elevation. It is also important for a buyer to determine if the property lies in a floodway.
- (4) Ground floor enclosures that lie below the base flood elevation may be used only for: (i) parking; (ii) storage; and (iii) building access. Plumbing, mechanical, or electrical items in ground floor enclosures that lie below the base flood elevation may be prohibited or restricted and may not be eligible for flood insurance coverage. Additionally:
- (a) in A-Zones, the ground floor enclosures below the base flood elevation must have flow-through vents or openings that permit the automatic entry and exit of floodwaters:
  - (b) in V-Zones, the ground floor enclosures must have break-away walls, screening, or lattice walls; and
  - (c) in floodways, the remodeling or reconstruction of any improvements may be prohibited or otherwise restricted.

**D. COMPLIANCE:**

- (1) The above-referenced property may or may not comply with regulations affecting ground floor enclosures below the base flood elevation.
- (2) A property owner's eligibility to purchase or maintain flood insurance, as well as the cost of the flood insurance, is dependent on whether the property complies with the regulations affecting ground floor enclosures.
- (3) A purchaser or property owner may be required to remove or modify a ground floor enclosure that is not in compliance with city or county building requirements or is not entitled to an exemption from such requirements.
- (4) A flood insurance policy maintained by the current property owner does not mean that the property is in compliance with the regulations affecting ground floor enclosures or that the buyer will be able to continue to maintain flood insurance at the same rate.
- (5) Insurance carriers calculate the cost of flood insurance using a rate that is based on the elevation of the lowest floor.
  - (a) If the ground floor lies below the base flood elevation and does not meet federal, state, county, and city requirements, the ground floor will be the lowest floor for the purpose of computing the rate.
  - (b) If the property is in compliance, the first elevated floor will be the lowest floor and the insurance rate will be significantly less than the rate for a property that is not in compliance.
  - (c) If the property lies in a V-Zone the flood insurance rate will be impacted if a ground floor enclosure below the base flood elevation exceeds 299 square feet (even if constructed with break-away walls).

**E. ELEVATION CERTIFICATE:**

The elevation certificate is an important tool in determining flood insurance rates. It is used to provide elevation information that is necessary to ensure compliance with floodplain management laws. To determine the proper insurance premium rate, insurers rely on an elevation certificate to certify building elevations at an acceptable level above flood map levels. If available in your area, it is recommended that you obtain an elevation certificate for the property as soon as possible to accurately determine future flood insurance rates.

**You are encouraged to: (1) inspect the property for all purposes, including compliance with any ground floor enclosure requirement; (2) review the flood insurance policy (costs and coverage) with your insurance agent; and (3) contact the building permitting authority if you have any questions about building requirements or compliance issues.**
