

Things We Love About Our House

Love the neighbors ... Everyone is very friendly!

Love the high ceilings!

The kitchen is open to the living room and dining room which is great for entertaining

For multi-generational families, it's convenient to have a second downstairs bedroom and nearby bath

The upstairs is open enough so when the kids are up there we can see what's going on and we can still hear them

The size of the primary bath feels so luxurious

The huge covered patio is great to have in any weather with 2 lighted ceiling fans

The bus stop for the kids' school at the corner is so convenient

So close to shopping and restaurants
