## Masterfully Planned

For more than 60 years, Friendswood Development Company has set the standard for community living. Through careful planning, innovative design and attention to detail, residents enjoy an outstanding array of amenities and the stability that families value most. Together with Houston's most trusted home builders, we continue to provide a better quality of life in the most desired locations. Back in 1962, Friendswood Development Company opened the new community of Clear Lake City, which was the Houston area's very first master-planned community. Sendero is part of the next generation of Friendswood Development Company communities; an amazing place to raise your family and call home.
