Great community within 20 minutes of H-town's medical center / downtown business district. Close proximity to 288 & Beltway 8 to get anywhere easily. This freshly painted front door opens up to a nice 3bdrm + study floorplan. A front study with french doors (being used now as a bedroom) that has great privacy working from home. Hi-ceiling dining room with a wall of windows and open concept kitchen/family room for gatherings. The island kitchen gives your gourmet cook more than ample room for counterspace with some great pots and pans drawers! The ever-popular mocha espresso 42" cabinets with crown molding are a nice touch to this good size kitchen. The gas range has 5 burners which makes it really easy to prepare quick meals! You will love the look of the wood tile flooring flowing throughout and into the family room. Outside is a big backyard, no back neighbors! Serenity & beautiful sunsets per owner remarks! No front or back neighbors!!
