	*For purposes of this notice: "100-year floodplain" means any area of land that:
	(A) is identified on the flood insurance rate map as a special flood hazard area, which is designated as
	Zone A, V, A99, AE, AO, AH, VE, or AR on the map;
	(B) has a one percent annual chance of flooding, which is considered to be a high risk of flooding; and
	(C) may include a regulatory floodway, flood pool, or reservoir.
	"500-year floodplain" means any area of land that: (A) is identified on the flood insurance rate map as a moderate flood hazard area, which is designated
	on the map as Zone X (shaded); and
	(B) has a two-tenths of one percent annual chance of flooding, which is considered to be a moderate
	risk of flooding. "Flood pool" means the area adjacent to a reservoir that lies above the normal maximum operating level of the
	reservoir and that is subject to controlled inundation under the management of the United States Army Corps of
	Engineers. "Flood insurance rate map" means the most recent flood hazard map published by the Federal Emergency
	Management Agency under the National Flood Insurance Act of 1968 (42 U.S.C. Section 4001 et seq.).
	"Floodway" means an area that is identified on the flood insurance rate map as a regulatory floodway, which
	includes the channel of a river or other watercourse and the adjacent land areas that must be reserved for the discharge of a base flood, also referred to as a 100-year flood, without cumulatively increasing the water surface elevation of more
	than a designated height.
	"Reservoir" means a water impoundment project operated by the United States Army Corps of Engineers that is
	intended to retain water or delay the runoff of water in a designated surface area of land.
