

JEFF A. WAGNER
MAYOR

NEW PERMIT REVIEW PROCEDURES

EFFECTIVE

JANUARY 4, 2020

STOP

Prior to submitting an application for a Commercial Building Permit you must have an:

1. Approved Floodplain Development Permit from Public Works
2. Approved Site Plan from the Planning Department

Why? The State of Texas Legislature enacted House Bill 3167. Effective September 1, 2019, this bill revised procedures for approval of site plans. To fully comply with the provisions of the HB 3167, the City is changing the permit review procedures.
