**CONTRACT TERMS:**

**SCOPE:**

Provide items indicated in Estimate (attached).

Soil information to be provided by Owner/Client (as required).

Perform field observations during construction as required by the Client/Contractor/City/County, which may include the following: foundations, reinforcing, framing, etc. The Engineer shall respond promptly to any request to perform field observations. Engineer requires a minimum of 24-hour notice prior to any field observations. Following such observations and completion of any corrective work in the field, an observation letter addressed to the Client/Project will be provided stating the date of the observation and certifying the observed work has been constructed in accordance with the Engineering design and should perform as intended. Any such letters shall be signed and sealed by the Engineer.

**DELIVERABLES:**

Provide scaled drawings (PDF) showing plans, sections, and details of the above items, including all applicable construction notes, bearing my Professional Engineer's seal.

Electronic files (CAD, etc.) remain the copyrighted intellectual property of 1113 Structural Engineers PLLC and will NOT be provided or included in this Estimate.

The following will be provided (as required for the Project):

\*General Notes/Plans/Elevations/Sections/Details/Schedules/3D Views/Letters

**ADDITIONAL SERVICES:**

Any work outside the Scope of this Estimate (attached) will be charged at the following hourly rates:

\*Professional Engineer: \$100/hr

\*Designer/Drafter: \$75/hr

\*Additional Site Visit/Observation: \$150 per request

**SCHEDULE:**

We will work diligently and efficiently to meet or exceed the Project schedule as determined by the Client and Project Team.

**PAYMENT TERMS:**

Total Design Fee is to be paid upon delivery of Construction Documents. Invoices for any Additional Services will be sent up completion of each occurrence.

# THE HIGHTOWER CO.

Keeping Texas Beautiful with Quality Windows & Doors

415 Willow Vista  
Seabrook, TX 77586  
Ph. (713) 542-8812  
Fax (281) 326-3593

CITY, STATE <u>RICHMOND TEXAS</u>	ZIP <u>77406</u>
PHONE NO. <u>281 728 8527</u>	ALT. PHONE

The Hightower Co. will provide and install ~~21~~<sup>20</sup> custom built energy efficient windows at the address listed above. All windows will be supplied with advanced Lo-E glass packages that are filled with Argon gas unless otherwise noted below.

The Hightower Co. will ensure that all new windows will be cleaned and caulked after installation. The Hightower Co. is also responsible for collecting and disposing of all job related debris. All windows come with a lifetime warranty which not only covers the operation of the window but also seal failure (fogging between glass panes). The Hightower Co. also stands behind our craftsmanship with a 2 year labor warranty.

**NORWECO SINGULAIR**  
Initial Service Contract

Owners Name: Ronnie Aymond  
Address: 5307 Virginia Dr. Effective Date: 2-10-15 Per final inspection  
Street  
City State Zip: Richmond Tx 77406 Expiration Date: 2-10-17  
City State Zip  
Telephone No: \_\_\_\_\_ System Installed On: \_\_\_\_\_  
Directions: Pine Hill Ranchettes Sub.

This initial two year service contract for the Singulair Bio-Kinetic wastewater treatment system located at the site described above is intended to enable the owner to economically obtain regular service inspections for the Singulair unit, as well as non-scheduled or special service that may be required by a qualified technician. When this contract is in force, the owner will not be charged for any routine service labor. Under the terms of this service agreement, a technician will regularly inspect, test, and report the plant at four month intervals. The site will be visited following each special owner service request within a 48-hour period. The contract shall remain in effect for a period of two years, as specified in the effective and expiration dates listed above. All components of the Singulair unit are covered for a full two years warranty as determined by the dates above. The components include: concrete tanks, aerator, discharge pump, all electrical components installed as part of the system, filter / chlorination assembly, sprinkler heads, and piping. This service contract does not include the pipe from the structure to the tanks or any necessary sludge pumping that may need to occur. It shall also be understood that the homeowner is responsible for maintaining the chlorine in the system. The Texas Commission on Environmental Quality rules requires a service policy to be in effect at all times or the on-site sewage facility permit is considered void. All commercial systems will have a BOD and TSS test performed annually. Additional charges will be billed to the owner for the BOD and TSS test. The homeowner agrees to provide Hurt's Wastewater Management Ltd. with all gate combinations, keys, etc. to gain access to the system for the purpose of conducting routine inspections or service calls and to immediately notify with any changes and provide the new combinations or keys.

VIOLATION OF WARRANTY includes shutting off the electric current to the system for more than twenty-four hours, disconnecting the alarm system, restricting ventilation to the aerator, overloading the system above its rated capacity, or introducing excessive amounts of harmful matter into the system, or any other form of unusual abuse.

> Installers will perform what is required to complete the Installation Details described below.<

**WHS:** Ronnie already has a 1" PVC three way bypass/loop in the back closet of the garage. Just above this in the attic there is the main water line in 1" Copper. We will intersect the copper line using two 1" sharkbite elbows, connect to CPVC and transition to the 1" PVC bypass mentioned prior. Drain line will go over garage closet in the attic then outside through the soffit eaves, down the backside of the garage into the rock bed. We need to "T" the drain line to allow for 4 different disbursement outlets. There is a 110 outlet close by for the low voltage transformer.
