Hi John,

We only use that section of the Chain of Custody as the project name in order for us to reference laboratory results to our clients and properties and it often does not reference the exact address or even a different reference is used. With that said if it makes you feel more comfortable I can have the laboratory name change the project name to the address for you.

-Thomas

Thomas,

There is an error in our address on page 1 of the Laboratory Analysis Report that needs to be corrected for future reference.

There was a typo error on the Project Name: Should be 5747 Indian Cir not 5747 Indian Air.

Please send me a corrected page 1 for our files.

Thanks,

John Lottman
