

# Albury Trails Estates

**See what neighbors in Albury Trails Estates have to say about the community.**

We moved into Albury Trails Estates (ATE) in 2021 and have met the most amazing neighbors in just a few months. The community and new friends make us feel like we have lived here for years.

We were drawn to ATE for the small town feel (Tomball) with quick access to major freeways. Getting out and about is more convenient than we expected. And, with delicious dining and entertainment just a few miles away, ATE is the perfect place for us.

What drew our attention to ATE was the themed names. We wanted a place that appeared family friendly and were pleased to see two playgrounds, a neighborhood pool, and neighbors socializing when we were scoping the area before we bought our home.

The people here are very supportive and have rallied many a time to someone in need and are active participants in numerous causes. We hope to meet you soon

We moved to Albury Trails Estates on June 1st, 2020, from the Memorial City area. We could not have found a better neighborhood. Everyone we have met has been kind and welcoming, we enjoy going on walks each night and continuing to meet people. It is a quiet neighborhood and the perfect place to raise our 4-year-old son. It truly is a wonderful community, and we are so glad to be a part of it.

We were lucky enough to stumble across Albury Trails Estates 11 years ago. We fell in love with how the neighborhood is quiet and tucked away, yet near Old Town Tomball and still in the Klein school district. As we've watched the neighborhood grow, we've enjoyed getting to know our friendly neighbors! We wouldn't want to raise our family anywhere else.
