

Generac Centurion Series Generators

(Provided by Seller)

Generac Centurion Series Generators

Choose the generator seven out of ten families have already installed. Protect your home or business with the preferred 24/7 backup power protection of Generac.

Generac's OHVI engine, specifically designed for generator use, provides the reliability needed to power through the most severe weather outages.

Delivers best-in-class power quality with less than 5% total harmonic distortion for clean, smooth operation of sensitive electronics and appliances.

Keep your power and the peace with the Centurion 44kW. Packing a lot of power into a smaller footprint with less noise, ideal applications include larger homes, gas stations, convenience stores and other small businesses.

44kW Generac Centurion 44KW Standby Generator

Keep your power and the peace with the Centurion 44kW. Packing a lot of power into a smaller footprint with less noise, ideal applications include larger homes, gas stations, convenience stores and other small businesses.

Powerful low-speed, liquid cooled engine is engineered to run at only 3600 rpm for a substantially quieter generator, consuming less fuel and giving both the engine and alternator a longer life.

Quiet-Test™ Mode for a weekly self-test that runs quieter than other brands, consumes less fuel and helps make your Centurion generator the most environmentally friendly on the market.

Service manual available in PDF for the new owner.
