Aerobic On-Site Sewage Facility License Letter

A Final Inspection was completed for the aerobic on-site sewage facility installed on your property. As the property owner you shall continuously maintain a signed written contract and contract fee (\$15.00 year) to this office **at least 30 days prior to the expiration of the previous contract.**

It is the maintenance company's responsibility to sample and inspect your system at least once every four months. The sampling and reporting record must be submitted to our office for review. In addition, our inspector will make random inspections of the system.

It is the homeowner's responsibility to check the chlorine level periodically and add the necessary liquid or tablets. If the system sprays without chlorine, it can cause airborne diseases (e-coli, TB, etc.).

Please retain this letter in your records as proof of your aerobic OSSF permit. If you have any questions, you may contact this office by phone or email: (936)327-6820 extension 1, permits@co.polk.tx.us.

Sincerely,

Hollie Oliver
