Thu

SUGGESTED SCHEDULE OF MANAGEMENT ACTIVITIES

2022 – (Before April 30) Apply for 1-d-1 Open Land (Timber) appraisal on 11.465 acres of Hardwood Type, and apply for Restricted-Use (Streamside Management Zone) Special Appr for 2.0 acres of the Hardwood Type. Identify and post all boundaries. Commence yaupon control as desired. Inspect timber for insect and disease problems.

2023 to 2031 – Continue to permit timber in Hardwood Type to grow and develop. Continu yaupon control, as desired. Maintain boundaries. Inspect timber biannually for tree morta or other signs of insect or disease problems.

2032 – Update Forest Management Plan.

Note: This forest management plan and accompanying recommendations are intended to flexible and adaptive. Assumption and completion of recommended management activiti will depend upon the Owner's financial situation. Timing of harvesting operations will be influenced by growth of the timber, market conditions, and the Owner's income needs. O goals and management activities may be incorporated into this plan by written addendur attached hereto.

This Forest Management Plan completed this 28th day of March, 2022 by
