1. The above information was prepared by the architect on the basis of information furnished by the owner and is not to be construed as a warranty of fitness for any particular purpose. The architect assumes no responsibility for the accuracy or completeness of the information furnished by the owner.

2. The architect shall not be responsible for the design of any specialty trades, such as mechanical, electrical, plumbing, or other trades, which are shown on the drawings. The architect shall be responsible for the coordination of these trades with the building design.

3. The architect shall not be responsible for the design of any foundation, retaining walls, or other structures, which are shown on the drawings. The architect shall be responsible for the coordination of these structures with the building design.

4. The architect shall not be responsible for the design of any site work, such as grading, paving, or landscaping, which are shown on the drawings. The architect shall be responsible for the coordination of this work with the building design.

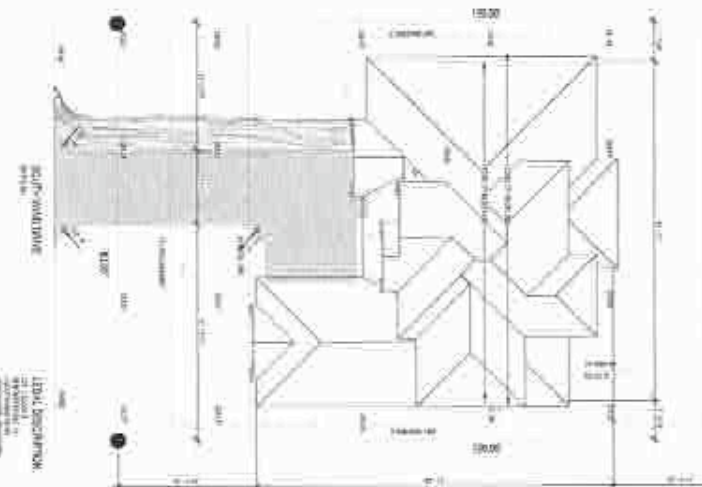

5. The architect shall not be responsible for the design of any utility lines, such as water, sewer, or gas, which are shown on the drawings. The architect shall be responsible for the coordination of these lines with the building design.

6. The architect shall not be responsible for the design of any other trades, such as fire protection, security, or communication, which are shown on the drawings. The architect shall be responsible for the coordination of these trades with the building design.

7. The architect shall not be responsible for the design of any other trades, such as audio-visual, or other special systems, which are shown on the drawings. The architect shall be responsible for the coordination of these trades with the building design.

8. The architect shall not be responsible for the design of any other trades, such as datacom, or other special systems, which are shown on the drawings. The architect shall be responsible for the coordination of these trades with the building design.

9. The architect shall not be responsible for the design of any other trades, such as elevator, or other special systems, which are shown on the drawings. The architect shall be responsible for the coordination of these trades with the building design.
