WHAT I LOVE ABOUT MY HOME

- I love that the bedrooms are extra-large
- You can put Texas-sized furniture in every room and still have space
- I love the deep pantry and long countertops
- I love the real hardwood cabinets, and the real slide-outs we built. You can put a lot of weight on them
- I love that the house is on the lake
- Love that the street is on a quiet nook (if you will) and does not have much traffic
- Love that you can walk out the back yard and go to the updated splash pad, park, and pool. The back lake has a trail that goes all the way around (a little over a mile)
- I really enjoy watching the ducks, birds, and turtles
- I love the 3-car garage with added closet and shelves
- I will miss that when things happen, there is always a neighbor willing to step up and help if asked
