OUR ISST COMMENTS. The ability of the bigle and allies also	- b - d t b	anda alab bi	ill in 1000 considers to 1	the IMCAD
SUBJECT COMMENTS: The subject is a two story brick and siding atta				
website. It is an interior unit and is situated on an approximately 0.02 ac				
WCAD website or its plat map, and was estimated. The home features it				
bedrooms, 1.1 baths, a porch, deck, and balcony. The subject does not	appear to be located in th	ne 100 Year F	Flood Zone (see Flood M	lap).
SALES COMPARISON ANALYSIS COMMENTS: Search parameters for				
sales of townhomes and condominiums in Hickory Hills Townhouses (Tir				
size, style, quality of construction, effective age, condition, bed/bath cour				
According to harMLS, there were only four listed sales in Hickory Hills To				
#2, #3, and #4 to be over six months old. The comparable sales used in				
recent, similar, and proximate data currently available, and result in a rea	sonable range of adjuste	d values. Th	e subject was placed at	the lower
end of the value range due to its lack of updating.				
DEFINITION OF CONTRIBUTORY VALUE: A real estate term that refer	s to the contribution a par	rticular compo	onent has to the value of	f the whole
property. This is determined by the market and is often different than the				
home improvements will show up on an appraisal with a contributory value				
equal to the money invested.	amount, and that those	s triat do will i	iot necessarily raise the	Value
equal to the money invested.				
Sale #4 was adjusted downward for the estimated contributory value of it	s seller contributions.			
Sales #1, #3, and #4 were adjusted downward for the estimated contribu	tory value of their condition	on and/or upd	lating versus the subject

## APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

- 1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.
- I performed a complete visual inspection of the interior and exterior areas of the subject property. I reported the condition
  of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the
  livability, soundness, or structural integrity of the property.
- 3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
- 4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.
- 5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.
- I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.
- 7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.
- 8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.
- 9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.
- 10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.
- 11. I have knowledge and experience in appraising this type of property in this market area.
- 12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.
- 13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.
- 14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.
- 15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.
- 16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.
- 17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.
- 18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).
- 19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.
- 20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.

# UNIFORM APPRAISAL DATASET (UAD) DEFINITIONS ADDENDUM

(Source: Fannie Mae UAD Appendix D: UAD Field-Specific Standardization Requirements)

Condition Ratings and Definitions

C1

The improvements have been recently constructed and have not been previously occupied. The entire structure and all components are new and the dwelling features no physical depreciation.

Note: Newly constructed improvements that feature recycled or previously used materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100 percent new foundation and the recycled materials and the recycled components have been rehabilitated/remanufactured into like-new condition. Improvements that have not been previously occupied are not considered "new" if they adequate maintenance or upkeep).

C2

The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category are either almost new or have been recently completely renovated and are similar in condition to new construction.

Note: The improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.

C3

The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

Note: The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. Its estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.

C4

The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

Note: The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an ongoing basis resulting in an adequately maintained property.

C5

The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability is somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

Note: Some significant repairs are needed to the improvements due to the lack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.

C6

The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

Note: Substantial repairs are needed to the improvements due to the lack of adequate maintenance or property damage. It reflects a property with conditions severe enough to affect the safety, soundness, or structural integrity of the improvements.

#### **Quality Ratings and Definitions**

Q1

Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are of exceptionally high quality.

Q2

Dwellings with this quality rating are often custom designed for construction on an individual property owner's site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residence constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.

Market Conditions Addendum to the Appraisal Report The purpose of this addendum is to provide the lender/client with a clear and accurate understanding of the market trends and conditions prevalent in the subject File No. BA4290-1123.RCNV neighborhood. This is a required addendum for all appraisal reports with an effective date on or after April 1, 2009. Property Address 2521 Crosstimbers St Apt H2 City Huntsville Borrower Vanetta S. Custer State TX ZIP Code 77320 Instructions: The appraiser must use the information required on this form as the basis for his/her conclusions, and must provide support for those conclusions, regarding housing trends and overall market conditions as reported in the Neighborhood section of the appraisal report form. The appraiser must fill in all the information to the extent it is available and reliable and must provide analysis as indicated below. If any required data is unavailable or is considered unreliable, the appraiser must provide an explanation. It is recognized that not all data sources will be able to provide data for the shaded areas below, if it is available, however, the appraiser must include the data in the analysis. If data sources provide the required information as an average instead of the median, the appraiser should report the available figure and identify it as an average. Sales and listings must be properties that compete with the subject property, determined by applying the criteria that would be used by a prospective buyer of the subject property. The appraiser must explain any anomalies in the data, such as seasonal markets, new construction, foreclosures, etc. **Inventory Analysis** Prior 7-12 Months Prior 4-6 Months Total # of Comparable Sales (Settled) Current - 3 Months Overall Trend Increasing Stable

Prior Months 7-12: 7 Sales; 1 with concessions; 14% of sales for this period. 4-6: 5 Sales; 0 with concessions; 0% of sales for this period. 0-3: 2 Sales; 0 with concessions; 0% of sales for this period. The concessions ranged between \$5,500 and \$5,500. The median concession amount is \$5,500. Are foreclosure sales (REO sales) a factor in the market? Yes 🔀 No If yes, explain (including the trends in listings and sales of foreclosed properties). The data used in the grid above does not indicate there were any REO/Short sales or other distressed properties associated with the reported transactions. However, this is not a mandatory reporting field for agents and there may be some distressed sales that were not reported. It is beyond the scope of this assignment to confirm each sale used in the Market Conditions Report Cite data sources for above information. HARMLS was the data source used to complete the Market Conditions Addendum. 11/02/2023 Summarize the above information as support for your conclusions in the Neighborhood section of the appraisal report form. If you used any additional information, such as an analysis of pending sales and/or expired and withdrawn listings, to formulate your conclusions, provide both an explanation and support for your conclusions. Market conditions and property values appear to be relatively stable to increasing for the past year to date for the greater Huntsville area. The limited amount of sales data and the wide range of properties make it difficult to accurately determine, and limit the validity of this analysis. Marketing time for sold properties is mainly less than 90 days, although some properties do take longer. Various types of financing are currently available at competitive rates. Some seller contributions have been noted. If the subject is a unit in a condominium or cooperative project, complete the following: Project Name: Subject Project Data Prior 7-12 Months Prior 4-6 Months Current - 3 Months Total # of Comparable Sales (Settled) Overall Trend Absorption Rate (Total Sales/Months) Increasing Stable Declining Total # of Active Comparable Listings Increasing Stable Declining Months of Unit Supply (Total Listings/Ab.Rate) Declining Stable Increasing Declining Stable If yes, indicate the number of REO listings and explain the trends in listings and sales of Increasing foreclosed properties. Summarize the above trends and address the impact on the subject unit and project. Signature Signature Appraiser Name James D. Baker Supervisory Appraiser Name Company Name Baker Appraisals, Inc.
