Nitsch Elementary

2023 National Blue Ribbon School

The National Blue Ribbon Schools Program, now in its 40th year, honors the Nation's top schools based on academic performance on state and nationally normed assessments and academic progress in closing achievement gaps.

The National Blue Ribbon Schools Program emphasizes that their recognized schools set high standards and remain closely connected to the essence of teaching and learning. They leverage data-driven instruction, value faculty through professional learning opportunities, and engage families and communities toward shared goals.

Nitsch Elementary Principal Frank Ward proudly stated. "It is a simple mission paired with a huge task: Every Child. Every Day. Following this simple guiding principle, we know the possibilities are limitless for our students. Through the diligent work of a staff that believes, collaborates, and moves with a sense of urgency, achieving is more than a dream. With the support of Dr. McGown and her team, it has become a reality for our kids. This is a great honor for our school community. Go, Team Nitsch!"
