

# REASONS WHY WE LOVE OUR HOME

1. My husband grew up in Briargrove Park. His dad was a home builder and built one of their homes. He and his family lived in four homes throughout the years in Briargrove Park. This house is his fifth house in BGP. He and his brothers went to Walnut Bend Elementary and then on to Rogers and Lee High School.
2. BGP is a very quiet neighborhood with a lot of families with family activities. There are young families, as well as, and many of Mike's childhood friends still live in their homes that have been passed on to them from their parents.
3. Both Mike and I went to Grace Presbyterian Church (which is in the neighborhood) growing up. It is now a pre-school and elementary school and several of the families belong to this church and send their children to Grace School.
4. BGP is in close proximity to Memorial City and City Center for shopping and restaurants. It's also in a very secluded and insulated by Buffalo Bayou and River Crest, Carillon West shopping center and Beltway 8.
5. We have a large family, and this house accommodates everyone. We have loved having Thanksgiving and Christmas here where all of the family members can spread out and each get their own rooms. Now that we have grandchildren, their family stays in the in-law suite and can put the kids to bed and come back into the house to sit around the den and hang out.
6. My favorite room is the kitchen because I love to cook and watch TV while talking with family and friends. My husband loves to BBQ, and the patio is right outside the porch room in close proximity to the kitchen, as well as the swimming pool.
7. One of the things that attracted us to this house and one of the things that we saw immediately when we entered the house is the privacy of the rooms in the house. You can have people hanging out in the den but not hear them in the front part of the house where the bedrooms are.
8. We love the openness of the house, the windows overlooking the pool, wide open entertainment areas and the separation of private rooms.
