The personal obligation for delinquent assessments shall not pass to such Owner's successors in title to such Lot unless expressly assumed by them, but the Lot shall continue to be impressed with the lien for such assessments until paid and further provided that such assumption shall in no way relieve such Owner from liability unless expressly agreed in writing by the Board at its sole discretion.

The annual assessment may be increased above the abovementioned maximum only by approval of two-thirds (2/3) of the Members in the Association entitled to vote present in person or by proxy and voting at a meeting duly called for this purpose. This increase shall become effective on the date specified in the resolution adopted at such meeting.

Section 5.4 *Special Assessments:* In addition to the annual assessments authorized above, the Association may levy against each Lot, in any assessment year, a special assessment applicable to that year only for the purpose of defraying, in whole or in part, the cost or any acquisition, construction, reconstruction, repair or replacement of any capital improvement upon the Common Area, including fixtures and personal property related thereto, or for any other purpose benefitting the Association or the Properties but

If the required quorum is not present, another meeting may be called subject to the same notice requirements, and the required quorum at the subsequent meeting shall be one-half (½) of the required quorum at the preceding meeting. No such subsequent meeting shall be held more than sixty (60) days following the preceding meeting.

Section 5.6 *Rate and Initial Commencement of Annual Assessment:* Assessments on all Lots shall be fixed at uniform rates. Annual assessments on all Lots shall commence on January 1, 2003 or on such later date as the Board of Directors may determine.

Section 5.7 *Date of Commencement of Subsequent Annual Assessments:* The annual assessment charge on Lots for all years after the initial commencement described in Section 5.6 above shall accrue and become due and payable in advance on the first day of January of each such succeeding year. The Board of Directors shall fix the amount of the annual assessment against each Lot as provided in Section 5.6 at least thirty (30) days in advance of each annual assessment period. Written notice of the annual assessment shall be sent to every Owner subject thereto not less than thirty (30) days prior to the first day of the next succeeding annual assessment period. and for a reasonable charge, furnish a certificate signed by an officer or designated agent of the Association setting forth whether the assessments on a specified Lot have been paid.

Section 5.8 *Reimbursement Assessments:* The Board of Directors may levy an Assessment against any Member if the failure of the Member (or any Related User of such Member) to comply with this Declaration, the Articles of Incorporation, the By-laws, any Building Guidelines, or the Rules and Regulations, shall have resulted in the expenditure of the funds, or in the determination that funds will be expended by the Association, in order to effect such compliance or to correct the effects of any such non-compliance. Such Assessment shall be known as a "Reimbursement Assessment" and shall be levied only after not less than ten (10) days written notice to the Member and a hearing opportunity in front of the Board. The amount of the Reimbursement Assessment shall be due and payable to the Association thirty (30) days after notice to the Member of the decision of the Board of Directors that the Reimbursement Assessment is owing, which shall be made following such hearing opportunity.

Section 5.9 *Effect on Non-Payment of Assessments -Remedies of the Association:* Any Assessment not paid within thirty (30) days after the due date shall bear interest from the due date at the highest lawful rate permitted in Texas. Interest, costs and reasonable attorneys fees incurred in any such action shall be added to the amount of such assessment or charge. Each Owner, by his or her acceptance of a deed to a Lot hereby expressly vests in the Association, or its agents, the rights and power to bring all actions against such Owner personally for the collection of such charges as a debt and to enforce the aforesaid lien by all methods available for the enforcement of such liens, including non-judicial foreclosures pursuant to Section 51.002 of the Texas Property Code, or any amendment to or modification thereof, and such Owner hereby expressly grants to the

Association a power of sale in connection with said lien. The Board of Directors shall have the power to appoint, from time to time, by written instrument recorded in the Real Property Records of Montgomery County, Texas, a trustee for the purpose of enforcing the liens created in favor of the Association in this Declaration by exercising the power of sale herein granted in the same manner as a deed of trust. The Board in its sole discretion may appoint additional or substitute trustees to exercise the same powers and duties, from time to time, by written instrument recorded in the Real Property Records of Montgomery County, Texas. The liens provided for in this Article shall be in favor of the Association and shall be for the benefit of all Lot Owners. No Owner may waive or otherwise escape liability for the assessments provided for herein by non-use of the Common Area or abandonment of his Lot.

Section 5.10 *Subordination of the Lien to Mortgages:* The lien for the assessments provided for herein shall be subordinate to the lien of any first mortgage on any Lot given for purchase money and/or construction funds of the Lot and Improvements thereon. Sale or transfer of any Lot shall not affect the assessment lien. However, the sale or transfer of any Lot pursuant to mortgage foreclosure or any proceeding in lieu thereof on the basis of any lien to which the assessment lien is subordinate as provided above shall extinguish the lien of such assessments as to payments which became due prior to such sale or transfer. No sale or transfer shall relieve such Lot from liability for any assessments thereafter becoming due, or from the lien securing same, nor shall same relieve the prior Owner of such Lot from personal liability for Assessments which accrued prior to such sale or transfer.

Section 5.11 *Exempt Property:* All Common Areas and all properties dedicated to, and accepted by, a local public authority and all properties owned by the Association, the Developer, or a charitable or nonprofit organization exempt from taxation by the laws of

In the event said committee or its designated representative, fails to approve or disapprove such design, materials and location plan within thirty (30) days after said plans and specifications have been submitted to it, said plans and specifications will be deemed APPROVED. All decisions of such committee shall be final and binding and there shall be no revision of any action of such committee except by procedure for injunctive relief when such action is patently arbitrary and capricious. Members of said committee shall not be liable to any persons subject to, or possessing or claiming the benefits of, these restrictive covenants for any damage or injury to property or for any other loss arising out of their acts hereunder; it being understood an aggrieved party's remedies shall be restricted to injunctive relief and no other. The members of said committee shall not be entitled to any compensation for services performed pursuant to this article, however the Board of Directors may hire, at its sole discretion, a consultant to review plans and/or applications for modification. The Board of Directors shall have the power to appoint all members of the Architectural Control Committee as well as to remove any member of such committee; provided, however, that until such appointment is made, the persons constituting said committee on said date shall continue to exercise such powers and duties until such time as their successors are appointed.

ARTICLE VII

USE RESTRICTIONS

All of the Properties shall be held, used and enjoyed subject to the restrictions in this Declaration (including, without limitation, the provisions relating to architectural approval of Improvements), as well as the following limitations and restrictions.

Section 7.1 *Residential Use:* Each Lot shall be improved as approved by the Architectural Control Committee with a Dwelling Unit and used solely for one (1) Common Household Group for residential living purposes and such purposes as are customarily incident thereto; but shall not be used at any time for business, commercial, educational, church or professional activities; provided, however, an Owner of a Lot may use his Dwelling Unit for professional or other home occupations such as the maintenance of a personal or professional library, the keeping of personal business or professional records or accounts, or for the handling of personal business or professional telephone calls or correspondence so long as there is no evidence thereof (such as, but not limited to, signs advertising a business, consultation in person with clients, client parking or customers at the Lot, or shipping and receiving of business items at the Lot) and no unreasonable inconvenience to such Owner's neighbors is created.

Section 7.2 *No Hanging Articles:* No clothing or household fabrics or other articles shall be hung, dried or aired on any Lot in such a way as to be visible from streets, other Lots or from any Common Area.

Section 7.3 *No Further Subdivision:* No Lot or Dwelling Unit thereon may be further subdivided nor may any easement or other interest therein less than the whole (including any timeshare estate) be conveyed by the Owner thereof (including the Association), without the prior written approval of the Architectural Control Committee. Nothing in this Section 7.3 shall be deemed to prevent an Owner from, or require the approval of the Architectural Control Committee for: (a) selling or leasing of an entire Lot together with

all Improvements thereon, or (b) transferring or selling an entire Lot together with all Improvements thereon to more than one Person to be held by them as tenants in common, joint tenants or tenants by the entirety.

Section 7.4 *View Restrictions:* No vegetation, landscaping or improvements shall be planted, constructed or maintained upon any Lot in such location or of such heights as to unreasonably obstruct the view from any other Lot or any Common Area in the vicinity thereof, or to create a condition deemed by the Board to be hazardous for the users of the sidewalks or streets within the Properties. In the event of a dispute between Owners as to the obstruction of a view from a Lot, or the Common Area or the creation of a hazardous condition, such dispute shall be submitted to the Board, whose decision in such matters shall be final and binding and not subject to appeal of any kind. The Board may request an Owner to remove or otherwise alter any obstruction to the view from the Lot, Common Area or any hazardous condition. Any such obstruction or hazardous condition shall, upon request of the Board, be removed or otherwise altered to the satisfaction of the Board, by the Owner of the Lot upon which said obstruction is located, at such Owner's sole cost; provided, however, in the event the Owner fails to remove or otherwise alter such obstruction or hazardous condition, the Association shall have the right to remove such obstruction or hazardous condition, charging the entire cost thereof to the Owner. Such costs shall be a Reimbursement Assessment and shall create a lien and personal obligation enforceable in the manner set forth in this Declaration.

Section 7.5 *Landscaping:*

(a) Within sixty (60) days of completion of construction of a Dwelling Unit on a Lot, the Owner shall install and shall thereafter maintain the landscaping and irrigation if applicable on such Lot in a neat and attractive condition, including all landscaping and gardening necessary to properly maintain (including periodically

replacing when necessary) any trees, plants, grass and other vegetation which may be originally placed on such Lot, or otherwise required by the Architectural Control Committee, Building Guidelines, or the Rules and Regulations.

(b) Without in any way limiting the generality of the foregoing, trees which are planted in satisfaction of the requirements of the Architectural Control Committee, Building Guidelines or the Rules and Regulations, and which tree or trees subsequently die or are uprooted for any reason, must be replaced by a tree of like type and of a size not less than that originally planted in compliance with the aforesaid requirements, within thirty (30) days after the occurrence of any such death or uprooting. In the event that any owner shall fail to install and/or maintain landscaping in conformance with such rules and regulations promulgated by the Architectural Control Committee to regulate landscaping permitted and required on Lots, or other requirements of the Architectural Control Committee, or shall allow his landscaping to deteriorate to a condition which is, in the opinion of the Board or Architectural Control Committee, dangerous, unsafe, unsightly or unattractive, the Board, upon thirty (30) days prior written notice to such Owner, shall have the rights as hereinafter described. Provided, however, in the event that any Owner shall fail to mow and keep trimmed and neat the lawn and grass areas on his Lot or otherwise permit any of said lawn and grass area to deteriorate to a condition deemed by the Board to be unsightly or unattractive, the Board, upon ten (10) days prior written notice to such Owner, shall have the rights as hereinafter described. The Board shall have the right, upon the appropriate above-described written notice to an Owner, either (i) to seek any remedies at law or in equity which it may have to correct such conditions, or (ii) after ten (10) days written notice to such Owner and an opportunity for hearing in front of the Board (herein, "Notice and Hearing"), to enter upon such Owner's Lot for the purpose of correcting such condition, and such Owner shall promptly reimburse the Association for the costs thereof, or (iii) impose such fines and penalties as exist under this Declaration, the Bylaws, or the Rules and Regulations of

the Association, and/or (iv) any combination of the foregoing. Such cost, as described in (ii) above, shall be a Reimbursement Assessment and shall create a lien and personal obligation enforceable in the manner set forth in this Declaration.

Section 7.6 *Vehicle Restriction:* No recreation vehicle, camper, camper not on a truck, boat, trailer, tractor, motor home or truck (other than a pickup truck or van) shall be stored or shall be parked for longer than twelve (12) hours on or about any Lot or Common Area (including driveways), or on any public or private road or street in such a manner as to be visible from any other Lot or from any portion of the Common Area. Any such vehicle, with the exception of recreational vehicles, may be kept only within a garage, an enclosed or partially enclosed structure approved by the Architectural Control Committee or within a parking area designated by the Association for the storage and parking of such vehicles. The storing of recreational vehicles on any Lot or on the Properties is strictly prohibited. No inoperable vehicle or vehicle kept stationary for a period in excess of forty-eight (48) hours shall be allowed to remain on any portion of the Properties or on any private or public street or road in such a manner as to be visible from any Lot (other than the Lot on which such vehicle is located), or from any portion of the Common Area. No vehicle, including, but not limited to, motorcycles, motorbikes, bicycles, automobiles, trucks, boats and trailers, may be kept or used anywhere within the Properties in violation of any applicable Rules and Regulations. Such Rules and Regulations, among other things, may prohibit the keeping or use of motorcycles, motorbikes, dune buggies, golf carts or other loud or offensive vehicles, or may limit their use, and may regulate places of parking of vehicles. Any vehicle found to be in violation of any of the provisions of this section 7.6 may be towed away by or on behalf of the Association at the expense of the owner of such vehicle or of the Owner of the Lot, if any, at which such vehicle is located. Such cost shall be a Reimbursement Assessment

and shall create a lien and personal obligation enforceable in the manner set forth in this Declaration.

Section 7.7 *Animals*: No animals of any kind shall be raised, bred or kept on the Properties except as hereinafter provided. One horse, a reasonable number of dogs, cats or other common household pets may be kept on a Lot, provided that:

- (a) they are not kept, bred or maintained for commercial purposes;
- (b) they do not make objectionable noises, create any odor, or otherwise constitute a nuisance to other Owners;
- (c) they are kept within an enclosed yard on the Lot occupied by the Owner of such pets or on a leash not to exceed twenty feet in length being held by a person capable of controlling the animal; and
- (d) they are not in violation of any municipal code or ordinance or of any other provision of this Declaration or such limitations as may be set forth in the Rules and Regulations.

A "reasonable number" as used in this Section 7.7 shall ordinarily mean no more than two (2) pets per Lot; provided, however, that the Board of Directors (or the Architectural Control Committee or such other person as the Board may from time to time designate) may from time to time determine that a reasonable number in any instance may be more or less than two (2). The Association, acting through the Board, shall have the right to prohibit the keeping of any animal, which, in the sole opinion of the Board, is not being maintained in accordance with the foregoing restrictions or any applicable Rules and Regulations. Each Owner and/or Related User maintaining any animal shall be liable in accordance with the laws of the State of Texas to each and all remaining Owners and Related Users of such Owners for any damage to person or property caused by any such animal; and it shall be the absolute duty and responsibility of each such Owner or Related User to clean up after such animals to the extent they have

used any portion of any Lot or any Common Areas. If any such Owner or Related User fails to so do, the Association shall have the right to perform such duty on such Owner's behalf and such Owner shall promptly reimburse the Association for the costs thereof (in addition to other rights and remedies of the Association). Such cost shall be a Reimbursement Assessment following Notice and Hearing, and shall thus become a lien and personal obligation enforceable in the manner set forth in this Declaration. In addition, a 4H or FFA animal may be kept on an Owner's lot for up to one (1) year for the purpose of a school project, the County Fair or other such educational purpose.

Section 7.8 *Restriction on Exterior Lighting:* Except as may be approved in advance in writing by the Architectural Control Committee, no exterior lighting shall be permitted on any Lot or otherwise anywhere within the Properties, including lighting to accent landscaping features, lights at entrances to any Lot, lights along paths or driveways and lights to illuminate permitted signs. Approval shall be given only if such lights shall be of attractive design and shall be as small in size as is reasonably practical and shall be placed or located as directed or approved in writing by the Architectural Control Committee, and shall not allow-light reflection or glare to be discernible at an unreasonable level from any place off the Lot where such lighting exists.

Section 7.9 *Casualty Loss to Improvements:* In the event of damage or destruction to any Improvements, within thirty (30) days of such occurrence, either:

(a) the Owner thereof, to the extent necessary, shall cause the damaged or destroyed Improvement to be restored or replaced to its original condition or such other condition as may be approved in writing by the Architectural Control Committee, or;

(b) the Owner shall cause the damaged or destroyed Improvement to be demolished and the Lot to be suitably landscaped, as approved by the Architectural Control Committee, so as to present a pleasing and attractive appearance, and thereafter,

shall cause the Lot to be well maintained, mowed, and edged to conform to occupied Lots in the immediate vicinity.

Section 7.10 *Solar Energy Installations:* The Architectural Control Committee may approve the plans and specifications for the installation of residential solar systems, provided that the Architectural Control Committee determines that such plans and specifications demonstrate the exercise of reasonable measures to minimize the potential adverse aesthetic impact of the installation on other portions of the Properties. Any such Architectural Control Committee approval shall have no effect upon the enforceability of any other use restriction in this Declaration. The Architectural Control Committee shall have the right to promulgate reasonable standards and guidelines against which to examine any such plans and specifications.

Section 7.11 *Drilling or Mining:* No mineral drilling, development, refining or mining operations of any kind shall be permitted upon any Lot or Common Area, nor shall any wells, tanks, tunnels, mineral excavations or shafts be permitted upon any Lot or Common Area. No derrick or other structure designed for use in boring for oil or natural gas shall be erected, maintained or permitted on any Lot or Common Area.

Section 7.12 *Square Footage, Heights and Character of Improvements:*

(a) All residential structures, other than manufactured homes, shall contain not less than 1,100 square feet of living area, excluding garages, carports and porches. All manufactured homes must be underpinned by brick, stone, aluminum or wood, precast Styrofoam, Hardipanel, pattern vinyl or any other developer approved skirting system within 120 days after move-in and wood material must be painted to match the exterior color of the manufactured home.

No Dwelling Unit or Improvement in the Property shall be erected, altered or permitted to remain on any Lot in excess of two (2) stories in height or thirty-six (36) feet in height measured from the finished grade of the Lot. Each Lot shall be improved with one Common Household Group Dwelling Unit together with a private garage serving not less than two (2) automobiles nor more than four (4) automobiles and not exceeding the height of the Dwelling Unit.

Section 7.13 *Building Set Back Lines:*

(a) No Improvements shall be located on any Lot nearer to the front property line than seventy-five (75) feet unless otherwise shown on the recorded Plat for such Lot. No Improvement shall be located nearer than twenty (20) feet to the common side property line of such Lot. No Improvement shall be located nearer than twenty (20) feet to the rear property line of such Lot which shall be located no nearer than fifty (50) feet to the rear property line unless otherwise shown on the recorded Plat. No Improvement shall be located nearer to any street side property line than fifty (50) feet

unless otherwise shown on the recorded Plat for such Lot. For purposes of this Section 7.16 and other provisions of this Declaration, the "front property line" is the common boundary of any Lot with a street, and in the case of a corner lot (with a common boundary on two streets or one street and a cul-de-sac), the boundary from which the Improvement setback distance is greater. All Dwelling Units shall face the front line of the Lot on which each such Dwelling Unit is built unless the Architectural Control Committee approves a deviation from this provision in advance in writing. The term "Improvements" as used in this Section 7.16 shall not include concrete drives, walks, landscaping, air conditioning units, fences, eaves, ducts and unroofed terraces; provided, however, in no event shall any portion of the Improvements on a Lot encroach upon another Lot.

(b) The Architectural Control Committee shall have the right to grant exceptions or variances to the building set back lines provided herein or shown on any Plat, or from any other construction related restriction, when doing so will not be inconsistent with the overall plans for development of the Property, and such exceptions or variances are not prohibited by law.

Section 7.14 *Visual Obstruction at the Intersections of Streets:* No object or thing which obstructs sight lines at elevations between two feet (2') and six feet (6') above the streets within the triangular area formed by the intersecting street property lines and the line connecting them at points twenty-five feet (25') from the intersection of the street lines (or extensions thereof), shall be placed, planted or permitted to remain on corner Lots.

Section 7.15 *Walls, Fences, and Hedges:* Walls and fences, if any must be approved prior to construction by the Architectural Control Committee and, except as otherwise provided herein, walls, fences, planters or hedges shall be six feet (6') in height, above

natural grade. The Architectural Control Committee shall have discretion to permit variances to the six feet (6') height requirement for privacy fences which have kick-board and/or capped tops. Additionally, the Architectural Control Committee shall have discretion to permit variances to the six feet (6') height requirement on all fences adjacent to or abutting the perimeter of the Subdivision. No wall, fence, planter or hedge shall be erected, planted or maintained outside of the lot lines of a Lot.

All other fences and walls will be constructed of ornamental iron or aluminum, wood, masonry or synthetic materials in harmony with the guidelines established by the Architectural Control Committee, provided that no electric wire or temporary fences shall be allowed unless the Architectural Control Committee approves a variance to allow such type of fence prior to construction. Privacy fences shall not be constructed any closer to the front than the front edge of the Dwelling Unit.

No Owner shall construct a fence so as to enclose any portion of any Reserve as shown on any Plat. Authorization of the construction of any one (1) or more fences or walls pursuant to this section shall not in any way obligate the Architectural Control Committee to authorize the construction of any other fence or wall. The Architectural Control Committee is hereby authorized to draft, publish and amend, from time to time, at its sole and absolute discretion, fence and wall requirements for Lots. All fences and walls shall be of equivalent standard and visually similar to surrounding fences on adjacent lots.

Section 7.16 *Removal of Trash and Debris During Construction:* During the construction, repair and/or restoration of Improvements, each Owner or party constructing improvements for an Owner ("Builder") shall remove and haul from the Lots all tree stumps, trees, limbs, branches, underbrush and all other trash or rubbish cleared from the Lot to permit construction of the Improvements, including, landscaping. No burning of trash or other debris is permitted on any Lot, and no materials or trash hauled

from any Lot may be placed elsewhere within the Properties, unless approved in writing by the Architectural Control Committee. Additionally, each Owner or Builder, during construction of Improvements, shall continuously keep the Lot and adjacent street frontage in a reasonably clean and organized condition. Papers, rubbish, trash, scrap and unusable building materials are to be kept picked up and hauled from the Lot on a regular basis. Other useable building materials are to be kept stacked and organized in a reasonable manner. No trash, materials or dirt shall be placed in any street. Any such trash, materials or dirt inadvertently spilling or getting into the street or street gutter shall be removed, without delay, not less frequently than daily.

Section 7.17 *Utility Easements*: Easements for installation and maintenance of utilities and drainage facilities shall be as reserved as shown on the Plats recorded from time to time in the Office of the County Clerk of Montgomery County, Texas affecting the Properties, and/or as created in any other instrument filed in the Real Property Records of Montgomery County, Texas. No utility company using the easements herein referred to shall be liable for any damage done by them or their assigns, their agents, employees or servants, to shrubbery, trees or flowers or other property of the Owners situated on any land covered by said easements. No Improvements shall be constructed over any such easement without prior approval of the Architectural Control Committee.

Section 7.18 *Nuisances*: No noxious or offensive activity shall be carried on upon any Lot, nor shall anything be stored or done thereon which may be or may become an annoyance or nuisance to any Owner of a portion of the Properties. No repair work, painting, dismantling or assembling of motor vehicles, boats, trailers or any other machinery or equipment shall be permitted in any street, driveway or yard adjacent to a street of any Lot within the Properties. The Association, through its Board of Directors, is hereby authorized to determine what constitutes a nuisance in violation of this restriction.

Section 7.19 *Other Structures:* No structure of a temporary character, nor any trailer, tent, shack, garage, barn, lean to, nor any other outbuilding (including, but not limited to, lawn storage buildings and children's play structures) shall be placed on any Lot without Architectural Control Committee approval, either temporarily or permanently. Temporary structures used as building offices and for other related purposes during the construction period must be inconspicuous and slightly, and there is hereby granted unto the Architectural Control Committee the sole power to determine what is inconspicuous and slightly in connection with such temporary structures. Builders in the Properties may use garages as sales offices for the time during which such Builders are marketing houses within the Properties. At the time of the closing of the sale of a residence by a Builder, any garage appurtenant to such residence used for sales or other purposes must have been reconverted to a garage.

Section 7.20 *Signage:* With the exception of political signs, which maybe displayed no more than fourteen (14) days prior and two (2) days after an election, no sign of any kind (except those signs specifically permitted in accordance with the Building Guidelines, or otherwise permitted by law) shall be displayed by any Owner to the public view on any Lot, including from within a Dwelling Unit, without the prior approval from the Architectural Control Committee and any such approval which is granted may be withdrawn at any time, in which event, the parties granted such permission shall immediately remove such structures. Notwithstanding the foregoing, unless otherwise directed in writing by the Architectural Control Committee, during the initial construction and sales period, the Owner may place signs on such Lot to advertise the merits of the Lot for sale or rent, provided that prior approval from the Architectural Control Committee as to the size, wording, style and materials of any such sign shall be required for any such sign to be placed or maintained an any Lot. No signage whatsoever shall be permitted in any Common Area or Reserve, without prior written approval of the

Architectural Control Committee. The Association shall have the right to remove any such sign in contravention hereof and in so doing shall not be subject to any liability of trespass or other sort in connection therewith or arising from such removal.

Section 7.21 *Satellite Dishes and Antennae*: No exterior antennas, aerials, towers, satellite dishes or other apparatus for the reception of television, radio, satellite or other signals of any kind shall be placed, allowed, or maintained upon any portion of the Property, including any Lot, which is visible from any street, common area or other Lot unless it is impossible to receive signals from an area which is not visible. In that event the receiving device may be placed in a visible location approved by the Architectural Control Committee. The Architectural Control Committee may require as much screening as possible while not substantially interfering with such reception. The Association shall have the right, without obligation, to erect or install an aerial, satellite dish, master antenna, cable system, or other apparatus for the transmission of television, radio, satellite or other signals for the benefit of the Property. No satellite dishes shall be permitted which are larger than one (1) meter in diameter. No broadcast antenna mast may exceed the height of the center ridge of the roof line. No antenna mast, which is dependent on line-of sight transmission, may exceed the height of twelve feet (12') above the center ridge of the roofline. No exterior antennas, aerials, satellite dishes, or other apparatus shall be permitted which transmit television, radio, satellite or other signals of any kind shall be placed, allowed, or maintained upon any portion of the Property. This section is not intended to violate the Telecommunications Act of 1996 (the "Act"), as may be amended from time to time. This section shall be interpreted to be as restrictive as possible without violating the Act. Without the prior authorization of the Architectural Control Committee, no flagpole of any sort shall be placed, allowed, or maintained outside a Living Unit or on the exterior of any building or other improvement located on a Lot.

Section 7.22 *Garage Sales*: No garage sales are permitted without prior approval of the Architectural Control Committee and are subject to Rules and Regulations.

Section 7.23 *Garbage and Refuse Disposal*: No Lot shall be used or maintained as a dumping ground for rubbish. Trash, garbage or other waste shall be kept in sanitary containers. All equipment for the storage or disposal of such material shall be kept in a clean and sanitary condition, and shall be kept in an enclosed garage or an area adequately screened by planting or fencing so as not to be seen from neighboring Lots or the street except on designated collection days.

Section 7.24 *Infringement*: An Owner shall do no act nor any work that will impair the structural soundness or integrity of another Lot or Improvements located thereon, or impair any easement or hereditament, nor do any act nor allow any condition to exist which will adversely affect any Common Area, other Lots, Improvements thereon, the Association, or other Owners.

Section 7.25 *Composite Lots*: In the event that the Architectural Control Committee approves in writing in its sole discretion the consolidation of two (2) or more adjoining Lots into one Lot, with the privilege of placing or constructing one (1) Dwelling Unit on such resulting Lot, then the side set-back lines for such Lot shall be measured from the resulting side property line of such Lot rather than from the set-back line indicated on the Plat or described in Section 7.16 above. The required building set-back line for the front property lines of such composite Lot shall be the greater of the front property line set back lines as shown on the Plat for the Lots to be consolidated. Upon receipt of written approval of the Architectural Control Committee to consolidate two (2) or more full Lots into one (1) Lot, such composite Lot shall thereupon be regarded as one (1) Lot for all

purposes under this Declaration, except that all future assessments payable by the Owner of the combined Lots shall be based upon one assessment for each of the originally platted Lots so combined. No combination or recombination of Lots shall reduce the total number of Lots subject to assessments within the Property. No consolidation involving a portion, but not all, of any Lot shall be permitted.

Section 7.26 *Lot Drainage:*

(a) Each Owner of a Lot agrees for himself, his heirs, legal representatives, assigns or successors-in-interest that he will not in any way interfere with the established drainage pattern over his Lot from adjoining or other Lots in the Properties, and he will make adequate provisions for the drainage of his Lot in the event it becomes necessary to change the established drainage over his Lot (which provisions for drainage shall be in the Owner's plans and specifications submitted to the Architectural Control Committee and shall be subject to such committee's approval). For the purposes hereof, "established drainage" is defined as the drainage which existed at the time that the overall grading of the applicable subdivision, including landscaping of any Lot, was completed by the original developer of the Subdivision.

(b) Each Owner (including Builders), unless otherwise approved by the Committee, must finish the grade of the Lot so as to establish good drainage from the rear Lot to the front street or from the building site to the front and rear of the Lot as dictated by existing drainage ditches, swales and Lakes constructed by the original developer of the Subdivision, or utility districts for drainage purposes. No pockets or low areas may be left on the Lot (whether dirt or paving) where water will stand following a rain or during watering. With the approval of the Architectural Control Committee, an Owner may establish an alternate drainage plan for low areas by installing an open concrete trough with area inlets, however, the drainage plan for such alternate drainage must be submitted to and approved by the Architectural Control Committee prior to the

construction thereof. The Architectural Control Committee's sole function in reviewing drainage plans is to see if the drainage pattern has been or will be altered by the proposed construction and to make a determination if the Owner/Builder has evaluated the effects of their construction to other properties and of the effect of potential flowing and rising water that may affect the submitted improvements.

(c) Highline Oaks has been designed and constructed utilizing surface drainage in the form of ditches and swales and, to the extent these drainage ditches and swales are located in front, side or rear Lot easements, the Owners shall not re-grade or construct any improvements or other obstruction on the Lot which adversely affects the designed drainage flow. The Owner shall be responsible for returning any drainage swale disturbed during construction or thereafter to its original line and grade, and the Owner shall be responsible for maintaining the drainage ditches or swales appurtenant to said Owner's Lot in their original condition during the term of his ownership.

(d) All Owners and/or Builders shall comply with the National Pollutant Discharge Rules and Regulations applicable to their respective Lot(s) as required by EPA under the Water Quality Act of 1987 amending the Clean Water Act, as said laws, rules and regulations may be amended from time to time.

(e) The Association shall have the right to enter upon any Lot or Reserve for the purpose of improving, constructing or maintaining the drainage facilities in the drainage easements shown on a Plat. The Association, at its expense, shall maintain all drainage facilities as shown on a Plat as well as any outside drainage easements referenced on a Plat. Without limitation, the Association shall remove accumulated silt and shall re-grade drainage easements as may be necessary to maintain roadside drainage and prevent damage to the roads. Further, fences shall not be constructed within or across any drainage easement as shown on the Plat of a subdivision or within or across any outside drainage easements referenced on a Plat.
