

Things we love about our house.....

- This is a fun corner. We often sit in the driveway in the evening and enjoy chatting with the passers-by. Very Heights-y.
- We have great neighbors, both young and old.
- We have a lot of guest parking, both in the driveway and on 18th street.
- Joshua's Native Plants is a great benefit, and he says he's not leaving anytime soon. It makes for a great view, they keep an eye on the place, and we just borrow a wagon to bring home our purchases.
- We've kept the trees professionally trimmed. The crepe myrtles on 18th are a beautiful white in the spring.
- The Nicholson trail was greatly enhanced by the 11th street improvements, especially the crosswalk. Our normal 3-mile loop is the MKT and back. The loop to Heights Blvd and back is a 5k.
- The construction on Shepherd/Durham is almost over (it's been an experience!), and the results are going to be fabulous. We may be the only section that ever gets completed!
