

Things I Love About

MY HOUSE

We have loved the space in this house! The reason we are moving is because we got new jobs on the North side of

Houston and need to be closer to work but otherwise we would have stayed. I have loved how big the

house feels, especially for its size, both common areas and bedrooms have lots of space, and there is not

a lot of dead space which is nice. Also, check out the master bathroom - gorgeous! Favorite.

MY NEIGHBORHOOD

This has been a great quiet and family friendly neighborhood. We are right across from the Elementary

School so we see lots of families, but amazingly school traffic really isn't an issue - they have a great

system in place. There are also some great daycares near by, nice parks and jogging trails. I've always

loved the beautiful mature trees, it really gives the neighborhood a homey feel.

MY COMMUNITY

It's a great location, only 15 minutes from I-45 and 10 minutes from Kemah. Kemah has been so fun, it

always has events going on, no matter the time of year. "Downtown"/Old town League City is only about

10 minutes away as well, and they constantly have fun, family-friendly events throughout the year. I've

loved the location right between Houston and Galveston - it's made getting to either area really easy.
