

Step-by-Step

Guide for Applicants

Getting Started

During the account creation process, you may list the Realtor representing you if the Realtor has an active account. Adding your Realtor will keep them informed about the status of your application. When the application is accepted, rejected, approved, or denied, you and your Realtor will receive an email notification.

When completing your lease application, it is best to provide all contact information for your current landlord and the contact information for someone in your employer's HR department responsible for employment verifications. Not including this information on your application may delay the approval process. Please use a U.S. address as your current address.

Each occupant and co-applicant 18 years or older must create an account and submit a separate application.

STEP 1 | Create an account

It is best to have the following information available when completing your lease application:

- Your current landlord's contact information (phone, fax, and email address)
- Previous landlord's contact information if you resided at your current address for less than three years.
- The contact information of your employer. This person must be able to verify your employment dates and pay.

At a minimum, you will need to upload the following items:

- Current ID card
- 4 weeks of pay stubs
- Pet photo (if applicable)
- Two years of tax returns, if self employed
