### **Can the Seller contribute to my closing cost?**

Yes. Seller contributions or credits can decrease the amount of closing cost and we encourage our buyers to talk with their realtor about this when signing contracts. The max Seller contribution allowed is 2%.

### **What is included in my monthly payments?**

Your monthly payment estimate will be principal and interest only. TOFC will not have the final monthly payment amounts until 3 days before closing when we have final amounts for taxes and insurance. Please factor in taxes and insurance as additional amounts when calculating your monthly payments.

### **What are the benefits of Owner Financing?**

There are several benefits to Owner Financing. There is more flexibility involved, since Owner Financing terms are not dependent on credit scores, bankruptcy, citizenship, etc. Owner Financing allows individuals to qualify for a long-term loan without having to go through a traditional bank for financing. Through our loan servicer, Buyers can also start raising their credit score through payment history by making on time payments for their monthly mortgage payment.

### **What if I miss 1 or more monthly payments?**

Late fees may be applied. If enough payments are missed, the foreclosure process will be initiated.
