## REGISTER YOUR HOME TODAY

To activate this Limited Guarantee you must register your Home at [environmentsforliving.com/register](http://environmentsforliving.com/register) or by calling (866) 912-7233 within 30 days of the date you close on the purchase of your Home. By registering your home, you agree to the terms and conditions set forth in this limited Guarantee including but not limited to the binding arbitration provision. For more information about the Environments For Living<sup>®</sup> program, visit [environmentsforliving.com](http://environmentsforliving.com).

<sup>1</sup> This Limited Guarantee is subject to the terms and conditions set forth on this page and the second page of this guarantee. <sup>2</sup> This cost is strictly an estimate and will vary with your actual cost of energy. This heating and cooling cost is based only on the utility or other fuel costs rates above and does not include taxes, surcharges or other fees charged by your utility providers. <sup>3</sup> The HERS Index score is a scoring system established by Residential Energy Services Network (RESNET), a third party, in which a score of 100 is what a standard new home built to code would score, while a score of 0 is a new home that has net-zero energy use. The HERS Index score shown is calculated for the home plan as designed, not as built, using software approved by RESNET. This software assumes certain conditions and requires inputs specified by RESNET. The actual energy efficiency of your home as built, and your energy use, will vary depending on, among other things, occupancy, location, orientation, and specific as-built features and characteristics, and may be higher or lower than the HERS Index score shown above. Environments For Living Program does not guarantee the actual HERS Index score.
