

Why we Love our Home!

1) Warm and vibrant community-the gate offers not only feelings of added safety but offers a smaller community within the large neighborhood

2) We have often enjoyed the walking trails and beautiful lakes

3) Community-wide events with food trucks, festivals with face painting and live music gave us nearby entertainment and the opportunity to meet other families in our area

4) Our outdoor area is a wonderful space for laidback weekends or entertaining friends and family. Thanks to our house orientation, we get summers full of morning sun and late afternoon shade.

5) We have enjoyed so many conveniences of having a one story home. Our floor plan is open and spacious, and our every day tasks with laundry and cleaning are easier without navigating stairs. The one story floor plan was also ideal for our growing family!
