## WHAT I LOVE ABOUT MY HOME

- We have many great memories of raising our children here, where they could play in the little park right behind our home and ride their bikes around the culdesac.
- We love that we have some really wonderful neighbors here.
- We love the space this home has, which has made it a great place for our kids to have sleepovers and hang out with their friends over the years.
- We love that our neighborhood has two pools, tennis courts, a catch-and-release pond, and a walking trail around the lake. We have always enjoyed walking around Eagle Lake, watching the birds and ducks, swimming in the pool there, and fishing when the kids were little.
- We love that our home is close to shopping, restaurants, the gym, and fun things to do but far enough away from the city to have a suburban feel.
- We love that we have enough room downstairs for us to both have our own offices since we have both worked from home over the years.
- We love our custom shed, which provides extra storage so that we can park our cars in the garage instead of having a lawnmower, tools, trash bins, or other things in the garage.

- We love our alarm system with its six cameras that we can monitor and turn on and off remotely with an app.
- We love that we have so much storage here, including a huge pantry, a large downstairs closet, an additional space under the stairs, and plenty of attic space.
- We love having a downstairs primary bedroom that provides separation from the children's rooms.
