Service Performed: _____ A/C PMS Heat PMS Service Call Install Bid Warranty

Service Performed: I found the high pressure switch

was tripped. I reset and found the capacitor

bad. Took out 45x5 run cap that was only

putting out 38x1. I also replaced low voltage

wire from wall to condenser. everything is

now working properly at this time.

1 service call

1 - 45x5 run capacitor

Total Invoice \$ 220.00
