

Better Homes and Gardens Real Estate Gary Greene

20335 Evergreen Springs Ln

WHAT I LOVE ABOUT MY HOME

- This home has been the perfect place for our family. If we could pick this house up and move it with us, we would.
- The open kitchen and family room has allowed our family to engage and be together while the spacious bedrooms provided privacy when needed.
- We love the natural light our home offers. The wall of windows in the family room gives you a great view of the backyard pool during the daytime and moonbeams at night.
- Our study has become a necessity for work since a hybrid work schedule became a thing. Being able to work in a closed quiet room rather than a noisy kitchen table was much more productive.
- The upstairs gameroom gave our children their own entertainment area for video games, movies, and having friends over. As parents, we really appreciated this extra space.
- The space that will be missed the most is our backyard. This area has been our sanctuary. We have enjoyed watching the springtime flowers bloom, identifying different species of birds living in the trees on the greenbelt behind us, and relaxing in the hot tub and pool. We have also had many opportunities to entertain family and friends with a cool dip in pool during the hot Texas summers.
- Finally, we have had wonderful neighbors and have enjoyed the Windrose community and all it has to offer. Windrose offers great space for long walks, nearby pocket parks for the kids and holiday community events (thank you LAUREN ASHLEY). Golf, tennis and pickleball are just around the corner. Both of our children participated in the neighborhood swim team for years which allowed us to meet some of the best people and become lifelong friends.
