

X8, X8-D

8" Basin Extension

Sealed basin extension increases PRO-Series height by 8" allowing longer pitched pipe runs to the inlet connection.

- Model X8 fits both Pro370 and Pro380-Series simplex systems
- Model X8-D fits Pro680 duplex systems
- Basin extensions include gasket, stainless steel hardware, longer QuickTree® for float mounting, and discharge pipe extension
- To order the extension factory assembled to a Pro-Series system, add "X8" or "X8D" to model number
Examples: P382X8LE41, P682X8DXPRG101

Passes 10' stack test when installed with a 370XL or 380XL system

ARC18 Access Riser

For below grade burial of pipes and electrical connections

Fits both Pro370 and Pro380-Series Systems
