

914 Rustic Oaks

What we love about this house!

- Quiet street / neighborhood with very little traffic or visitors
- Lots of tall trees and shade over the large yard, which is fantastic for our dogs.
- Convenient location with proximity to both Tomball and The Woodlands makes daily living and special trips a breeze! Hopping on 249 to get into town is also very easy.
- Large entertaining space indoors and outside. We've really enjoyed hosting crawfish boils or other parties out on the deck!
- I adore my kitchen and love cooking in it. It has a ton of prep space and I love the layout for cooking while hosting dinner parties.
- The kitchen is also way more functional after the renovation, with lots of storage space. The pantry is super functional now with interior drawers!
- The two twin master closets were surprising to find in a home this age, too. Definitely one of our favorite features!
